Urban Transport Systems G. Passerini, C. Borrego, 2020-04-02 Better urban transport systems are needed to achieve a healthier environment and as a result a wide range of research has originated from many different countries. These studies highlight the importance of innovative systems, new approaches and original ideas which need to be thoroughly tested and critically evaluated before they can be implemented in practice. To address the need to solve important pollution problems, the papers included in this book focus on the relationship with urban transport. There is also a growing need for integration with telecommunications systems and IT applications in order to improve safety, security and efficiency. The variety of topics covered in this volume reflects the complex interaction of the urban transport systems with their environment and the need to establish integrated strategies. The aim is to arrive at optimal socio-economic solutions while reducing the negative environmental impacts of current transportation systems. Lupoff, 2015-08-27 New Alabama: A planet that's a fair reproduction of long-lost Dixie filled with down-home racist rednecks. The N-Alabamians have carried their tribal prejudices to the farthest reaches of the galaxy like the other minorities expelled from the Earth by the dominant Pan-Semitic Alliance. There's New Transvaal, New Cathay and New Haiti, a black world where Papa Doc's descendants carry on the old ways. When New Alabama and New Haiti go to war with each other, it's a bloody black versus white stalemate. Until the N-Haitians develop a horrific new secret weapon based on a very ancient tradition. Imagine you're a clean-cut N-Alabamian good ol' boy giving your all up there in the space fleet and you suddenly realise the enemy crews aren't human at all. They're what people back on Earth used to call Zombies. *Neurotrauma Management for the Severely Injured Polytrauma Patient* James M. Ecklund, Leon E. Moores, 2017-01-12 This text addresses
