**Perspectives on Thought Leadership for Africa's Renewal** Kondlo, Kwandiwe, 2014-05-05 This book outlines perspectives of emerging and established African scholars on what one could describe as the debate on leadership and the articulation of the life of the mind in Africa's socio economic political and cultural life from the time of independence to date. The papers contained in the book cover the following thematic areas: Alternative Leadership Paradigm for Africa's Advancement, African Perspectives on Globalisation and international relations, Pan Africanism and the African Renaissance, Scientific Technological and Cultural Dimensions of African Development. The first section deals with alternative leadership paradigms for Africa's advancement. It also debates the thin line separating management studies from leadership studies and untangles the hermeneutic complexities in the term leadership. Section two examines among other things the crucial challenge of globalisation and public ethics and others African perspectives. The section also interrogates the current complexities and credibility deficits in the global governance of trade and towards the end engages philosophical questions about conscience and consciousness in African development and progress. The debates in section three continue to section four and focus on the overall issues of language and liberation, the significance of Multi Inter and Trans Disciplinary Approaches in the analysis of the African continent, appropriate indigenous paradigms for promoting the African renaissance as well as a series of debates on the meaning and prospects of regional integration in Africa's renewal. This provides just a snapshot of a very wide ranging and interesting debate contained in the publication Commerce Business Daily, 1997-12-31.

**Africa's Wellbeing in an Uncertain World** Vusi Gumede, 2020-11-09 The world remains uncertain. Africa is fragile. Many issues remain unresolved and the African and global situation is worsening. South Africa has been at the crossroads for long enough. There can be no more delays; the time has come to address the many critical issues. In *Africa's Wellbeing in an Uncertain World*, Vusi Gumede discusses these critical issues about Africa with specific focus on South Africa. He has revisited opinion articles and blogs he has been writing since the mid 2000s and taken his ideas and arguments together with his deliberations on the recent changes globally and in Africa and presented them in this thought provoking book. While taking into account what others have said about similar issues, this is an attempt to get us to talk about these challenges, the important issues and fundamental problems with a view to finding solutions. The future of the African continent could be bright if all the efforts that are being pursued for the improved wellbeing of Africans succeed. But as Vusi Gumede reflects in this book, if South Africa is to achieve the society envisaged in the Constitution, then all South Africans, whatever the colour of their skin, have an important role to play.

**Dreams of Power** K. van Walraven, 2019-01-04 Originally

published in 1999 this book was the first study to provide a systematic reconstruction of the OAU's ideological ground work. It is based on OAU documents, a corpus of African perceptions of OAU functioning collected from governmental and non-governmental newspapers and publications from more than thirty African countries and on interviews held with African diplomats and OAU officials. It was also the first study to pay attention to the OAU's role in the political psychology of state elites which comes to the fore in the areas of OAU co-operation discussed in this book: the OAU's internal functioning, the former struggle against apartheid and colonialism, conflict management and the OAU's role in representing collective African viewpoints in global fora. This study was originally a Ph.D. thesis which was considered to be among the best three dissertations in political science in The Netherlands in 1997.
