*Exploring Earthiness* Anne Primavesi,2014-08-28 If we see ourselves as Earth rather than Earth as existing for us our perspective is transformed A variety of religious philosophical cultural and political self perceptions that dominate our sense of human identity are deeply challenged by this shift in perspective John Locke s doctrine of Earth as human property has been central to current presuppositions about our selves justified on the grounds of our possessing unique divinely bestowed rational abilities But today the effectsof that doctrine on Earth s resource base and on its other than human creatures directly challenge such assumptions At the same time contemporary scientific findings about the evolution of Earthly life demonstrate that while we belong to Earth and nowhere else Earth does not belong to us Exploring this role reversal raises fundamental questions about current theological philosophical scientific and economic presuppositions that underpin the business as usual viewpoint and human centeredaims of contemporary policies and lifestyles It takes us beyond hierarchical Christian and philosophical doctrines toward a deeper Earth focused and peace based understanding of what it means to be human today
