system leads to one inescapable question how can you measure effectiveness The answer taken in this book is to employ a number of different criteria These criteria include the public s attitudes towards the institutions of government the degree in which all participate equally in political activities the level of which public policy is responsive to public opinion the ability of the actors in the process to create effective public policy the extent the political system imposes costs and benefits on us equally regardless of our economic condition race gender or age In doing so this book ties together and expands upon numerous scholarly studies conducted on American public policymaking and uses David Truman s Systems Model as a conceptual guide Because of the large amount of data presented the book will also serve as a reference source for others conducting research on American public policy *The United States Catalog* Mary Burnham,Carol Hurd,1928
