BAITCAST REEL OWNER'S MANUAL

Filling the reel with line- Make sure to thread the line over the gold colored shaft in the sensor bar and then thread the line through the line guide.

Setting the mechanical brake- For maximum casting performance, adjust the mechanical brake to the weight of the lure. Depress the thumb bar and turn the mechanical brake knob so that the lure slowly descends approximately 25 cm ("10"). If the lure does not move, the brake is too tight. If it falls to the ground the brake is too loose.

Adjusting the drag- Your new Shakespeare bait cast reel is designed with a wide-ranging drag to handle everything from large lures to smaller panfish. It is important to set the drag properly to avoid line breakage. The star drag is located between the handle and the right side plate, and allows the hooked fish to take line off the spool after you have made your cast and turned the handle to lock the spool. To adjust the drag, turn the star drag forward (clockwise) for added tension and backwards (counter clockwise) for less tension.

Maintenance- To improve the longevity of this product rinse gently in water after use. Leave the reel out to dry and store in a cool dry place away from direct sunlight. If the anti-backlash system begins to wear over time please send the reel to our service center for service. Please do not attempt to apply oil or grease to the reels because it could jeopardize the function of the anti-backlash mechanism.

Removing the left side plate-

Turn the side plate clockwise and pull it straight out to remove it.

For online direct one-on-one service for more complete warranty information, call us or visit us at www.shakespearefishing.com

To compensate for wear in the mechanism use a screw driver and turn the dial counter clockwise to return the position of the sensor bar to the factory setting of a 45° angle.

Service Manual of the Bureau of Education Philippines. Bureau of Education,1911 **Shakespeare and Social Dialogue** Lynne Magnusson,1999-03-28 Shakespeare and Social Dialogue deals with Shakespeare s language and the rhetoric of Elizabethan letters Moving beyond claims about the language of individual Shakespearean characters Magnusson analyses dialogue conversation sonnets and particularly letters of the period which are normally read as historical documents as the verbal negotiation of specific social and power relations Thus the rhetoric of service or friendship is explored in texts as diverse as Sidney family letters Shakespearean sonnets and Burghley s state letters The book draws on ideas from discourse analysis and linguistic pragmatics especially politeness theory relating these to key ideas in epistolary handbooks of the period including those by Erasmus and Angel Day and demonstrates that Shakespeare s language is rooted in the everyday language of Elizabethan culture Magnusson creates a way of reading both literary texts and historical documents which bridges the gap between the methods of new historicism and linguistic criticism **Catalog of Copyright Entries.**
