Sharp Air Conditioner Manual Remote Control:

Operator and Organizational Maintenance Manual, 1979 Traduction et apprentissage des langues Héba
Médhat-Lecocq, Delombera Negga, Thomas Szende, 2016-04-15 Ce volume accueille le texte des communications présentés dans le cadre d'une journée d'études organisée par l'Unité de recherche INALCO PLIDAM EA 4514 le 11 octobre 2013. Intitulé : Traduction et apprentissage des langues entre médiation et remédiation, cette manifestation avait pour objectif d'interroger la place de la traduction dans l'apprentissage des langues étrangères. Les liens entre didactique et traduction peuvent être abordés de différentes manières selon que l'on envisage la traduction pédagogique ou la traduction professionnelle. Des dispositifs peuvent s'enrichir mutuellement. L'exercice académique du thème ou de la version dans les études de langues étrangères peut-il servir de prétexte à une pratique professionnelle complexe ? La mise en place d'une compétence communicative est-elle compatible avec un recours raisonné à la langue maternelle ? Toute traduction de la langue maternelle ou vers la langue maternelle déclenche-t-elle une dynamique d'acquisition ? Comment recenser et améliorer les pratiques traductives qui sous-tendent l'apprentissage des langues ? Voici quelques questions auxquelles la journée d'études a tenté d'apporter des réponses et qui justifient pleinement que l'on place la traduction au centre des débats sans renier les acquis des approches communicative et actionnelle. Stratégie didactique et aussi technique de reformulation formatrice, la traduction sert à recenser, contrôler et consolider des structures grammaticales et des éléments du lexique qui d'une langue à l'autre posent inévitablement des problèmes d'équivalence. Quelque niveau de complexité que l'on se situe, traduire revient à prêter une attention permanente à la potentialité de deux ensembles de ressources linguistiques et stylistiques, à lever des ambiguïtés pragmatiques et culturelles tout en palliant le manque de matériel langagier. Car la traduction va au-delà de la simple recherche de correspondances sémantiques entre des mots ; traduire est un acte de compréhension de choix et de médiation linguistique et culturelle entre modes d'écriture et traditions de production textuelle.
