Nibiru's Final Servitor John Captain Pyles, 2022-02-03 Imagine earth being visited every 3600 years by an advanced culture so developed that we would be unable to comprehend Reinforced with that the ones who occupied this rogue planet had awareness that without their intervention earth would be destroyed In this narrative the ancient aliens provide earth with a protective deterrent This strategy was effective for thousands of years while the rogue planet was

separated by space time and orbital proximity However before the next sequential encounter was to come about the highly advanced planet would experience a catastrophic crisis While earth continued to progress into its present day cycle the story becomes focused on a group of people on a quest for ancient artifacts One of the devices that had been constructed at the last occupation of the ancient aliens was discovered in a remote cave More is quickly learned about these fabricated units as well as a shocking revelation that earth is on an unstoppable countdown toward its eminent obliteration Even though the close proximity of the two planets produce tremendous shifts within the earth s mantle a most unusual bond develops between the life forms of the older planet and the group of earth s mortals Being the selected few people that would obtain the knowledge of preventing the earth s doom they would soon be provided with an advantage from those of the superior culture
