Night Is For Hunting The John Marsden:

The Night is for Hunting John Marsden, 2001 While trying to care for a group of abandoned young children five Australian teenagers continue their struggle for survival and their resistance against the enemy invading their homeland Children's Literature and the Fin de Siècle Roderick McGillis, 2003-11-30 The close of a century invites both retrospection and prognostication As a period of transition it also brings a sense of uncertainty finality and apocalypticism These feelings stem from various events such as political turmoil scientific advancements and social change As might be expected literature reflects such changes and the feelings they engender But perhaps more surprisingly children's literature is especially sensitive to such matters and fiction for children often struggles with dark and unpleasant issues This book examines fin de siècle tensions in 19th and 20th century children's literature from around the world Each chapter is written by an expert contributor and the volume ranges over a disparate variety of topics These include poetry series books pacifist fiction gender issues religion and literature eco criticism minority experiences humor and the Holocaust fantasy and science fiction and computer culture In exploring these issues in relation to children's literature the contributors reveal the shifting nature of our values and the world in which we live Global in nature the chapters look at children's literature from such places as Germany Holland the United Kingdom Australia and the United States The Europa Directory of Literary Awards and Prizes Susan Leckey, 2015-12-22 A complete guide to the major awards and prizes of the literary world An invaluable source of information on awards and prizes world wide Covers over 1 000 awards and prizes Comprehensive background information on each award Extensive contact details Contents Includes internationally awarded prizes along with prestigious national awards Subject areas covered include adult and children's fiction non fiction poetry lifetime's achievement translation and drama Information is provided on the history of each award its purpose what is awarded how often the prize is awarded eligibility and restrictions the awarding organization and the most recent recipients Full contact details of the awarding organization are provided including main contact name postal address e mail and Internet address telephone and fax numbers Fully indexed by keyword awarding organization and award by subject **Cultural Encounters in Translated Children's Literature** Helen Frank, 2014-04-08 Cultural Encounters in Translated Children's Literature offers a detailed and innovative model of analysis for examining the complexities of translating children's literature and sheds light on the interpretive choices at work in moving texts from one culture to another The core of the study addresses the issue of how images of a nation locale or country are constructed in translated children's literature with the translation of Australian children's fiction into French serving as a case study Issues examined include the selection of books for translation the relationship between children's books and the national and international publishing industry the packaging of translations and the importance of titles blurbs and covers the linguistic and stylistic features specific to translating for children intertextual references the function of the translation in the target culture didactic and pedagogical aims euphemistic

language and explicitation and literariness in translated texts The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of traditional Eurocentric signifiers that identify Australia with the outback the antipodes the exotic the wild the unknown the void the end of the world the young and innocent nation and the Far West Contemporary signifiers that construct Australia as urban multicultural Aboriginal worldly and inharmonious are seriously under represented The study also shows that French translations are conventional conservative and didactic showing preference for an exotic rather than local specificity with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu especially through translated children s literature
