Night Elie Wiesel Dehumanization:

How Dehumanization Leads to Murder and Genocide Stewart Gabel, 2023-11-14 This book discusses psychological aspects of dehumanization and of the human tendency to dominate control and potentially murder those considered less than or other by the dominant group It explores how increasingly severe dehumanization resulted in the genocide of six million Jews in the second World War Psychological and behavioral strategies Nazi aggressors and ordinary citizens used to mislead themselves during this process are described Understanding the sequence of events from dehumanization to murder has implications for the apparent tendency of human beings to harm and potentially kill those who appear different or who are made into the other Efforts to prevent genocide should actively challenge dehumanization of weaker populations whenever possible even when dehumanization appears mild insignificant or innocuous Dehumanization in the Global Migration Crisis Adrienne de Ruiter, 2024 What can we learn about dehumanisation from the global migration crisis In reporting on the hardships that refugees asylum seekers and other migrants face scholars journalists commentators and displaced persons themselves have frequently described their mistreatment using the term dehumanisation Yet while this notion is commonly used or alluded to it is rarely defined or conceptualised This is surprising since its meaning is far from clear Does dehumanisation concern conditions of severe destitution in refugee camps which do not allow for minimally decent living standards Should we think of political games in which displaced people are perceived portrayed and treated as undesirable burdens or bargaining chips Or is it about the ways in which forced migrants may come to feel alienated from their own humanity This book examines what dehumanisation entails through a critical study of the various forms of social and moral exclusion to which people are exposed in the global migration crisis It presents a philosophical account of dehumanisation that is empirically grounded in both the lived experiences of forced migrants and prevailing accounts of their treatment The central argument is that dehumanisation consists in a distinct form of moral exclusion that is characterised by neglect of or contempt for the moral status of human beings which expresses itself in blindness for the significance of the human subjectivity of victims as a moral factor that should be taken into consideration A Study Guide (New Edition) for Elie Wiesel's "Night" Gale, Cengage, A Study Guide New Edition for Elie Wiesel's Night excerpted from Gale's acclaimed Novels for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Novels for Students for all of your research needs *A Sea of Troubles* Elizabeth James, B.H. Chew,2015-10-22 Joining the U S war effort in 1942 Mexican President Manuel vila Camacho ordered the dislocation of Japanese Mexican communities and approved the creation of internment camps and zones of confinement Under this relocation program a new pro American nationalism developed in Mexico that scripted Japanese Mexicans as an internal racial enemy In spite of the broad resistance presented by the communities wherein they were valued members Japanese Mexicans lost their freedom property and lives In Uprooting Community Selfa A Chew examines the lived experience of Japanese Mexicans in the U S Mexico borderlands during World War II Studying the collaboration of Latin American nation states with the U S government Chew illuminates the efforts to detain deport and confine Japanese residents and Japanese descent citizens of Latin American countries during World War II These narratives challenge the notion that Japanese Mexicans enjoyed the protection of the Mexican government during the war and refute the mistaken idea that Japanese immigrants and their descendants were not subjected to internment in Mexico during this period Through her research Chew provides evidence that despite the principles of racial democracy espoused by the Mexican elite Japanese Mexicans were in fact victims of racial prejudice bolstered by the political alliances between the United States and Mexico The treatment of the ethnic Japanese in Mexico was even harsher than what

Japanese immigrants and their children in the United States endured during the war according to Chew She argues that the number of persons affected during World War II extended beyond the first generation Japanese immigrants handled by the Mexican government during this period noting instead that the entire multiethnic social fabric of the borderlands was reconfigured by the absence of Japanese Mexicans Translating Holocaust Literature Peter Arnds, 2015-11-18 In his testimony on his survival in Auschwitz Primo Levi said our language lacks words to express this offense the demolition of a man If language if any language lacks the words to express the experience of the concentration camps how does one write the unspeakable How can it then be translated The limits of representation and translation seem to be closely linked when it comes to writing about the Holocaust whether as fiction memoir testimony a phenomenon the current study examines While there is a spate of literature about the impossibility to represent the Holocaust not much has been written on the links between translation in its specific linguistic sense translation studies and the Holocaust a niche this volume aims to fill
