Pixl Club Session 10:

House of Commons - Education Committee: School partnerships and Cooperation - HC 269 Great Britain: Parliament: House of Commons: Education Committee, 2013-11-06 The Government wants schools to take more responsibility for themselves and each other in delivering a true self improving school system It wants schools to look not to local authorities for expertise but to each other We have no problem with that vision and think the wide range of models and structures already in place is a strength and proof of vitality We support moves to give schools more freedom to innovate but we argue that the creation of a self improving system needs a degree of coordination and strong incentives to encourage schools to look beyond their own school gate Otherwise there is a danger that many schools will operate in isolation rather than in cooperation Academy chains are generally performing well but raise particular questions and need specific solutions We recommend that it should be made clear how academies can leave chains either with or without mutual consent We also call for the Department for Education to monitor more effectively the extent to which convertor academies meet the expectation that they should support other schools The report calls for amongst other recommendations that Ofsted to be given the powers to inspect academy chains and for Government to formalise procedures for schools to leave academy chains by mutual consent and to set out how an outstanding school can leave a chain against the wishes of the chain management
