Shame And Humiliation A Dialogue Between Psychoanalytic And Systemic Approaches:

Shame and Humiliation Carlos Guillermo Bigliani, 2018-04-17 This book is organised in a way of listening to a dialogue between theoretical approaches It represents an effort to build bridges between the different ways both psychoanalytical and systemic of thinking about the shame and humiliation and its context which can cross fertilise each other *Shame and Humiliation* Carlos Guillermo Bigliani, Rodolfo Moguillansky, Carlos E. Sluzki, 2013 Shame and Humiliation explores a sub set of universal emotions that are usually labelled as negative because of the sense of unease that they generate when we experience them and the tenacity with which we try to avoid them They can thus becoming powerful instruments in the power games of our species making their mark in both well intentioned education as well as in merciless relations of oppression Universal as they may be though these emotions are experienced and displayed in varied ways according to the mandates of different cultures and the vicissitudes of different socio cultural strata Shame and humiliation are therefore two key emotions that can cause deep suffering as well as contribute to orient our social life Some of the noblest and the most villainous acts are fueled by these emotions from self sacrifice to bloody revenge *Shame* David Keen, 2025-12-02 The uses of shame and shamelessness in spheres that range from social media and consumerism to polarized politics and mass violence Today we are caught in a shame spiral a vortex of mutual shaming that pervades everything from politics to social media We are shamed for our looks our culture our ethnicity our sexuality our poverty our wrongdoings our politics But what is the point of all this shaming and countershaming Does it work And if so for whom In *Shame* David Keen explores the function of modern shaming paying particular attention to how shame is instrumentalized and weaponized Keen points out that there is usually someone who offers an escape from shame and that many of those who make this offer have been piling on shame in the first place Self interested manipulations of shame Keen argues are central to understanding phenomena as wide ranging as consumerism violent crime populist politics and even war and genocide Shame is political as well as personal To break out of our current cycle of shame and shaming and to understand the harm that shame can do we must recognize the ways that shame is being made to serve political and economic purposes Keen also traces the rise of leaders on both sides of the Atlantic who possess a dangerous shamelessness and he asks how shame and shamelessness can both be damaging Answering this question means understanding the different types of shame And it means understanding how shame and shamelessness interact not least when shame is instrumentalized by those who are selling shamelessness Keen points to a perverse and inequitable distribution of shame with the victims of poverty and violence frequently being shamed while those who benefit tend to exhibit shamelessness and even pride **Into His Presence** Timothy L. Anderson, 2019-07-30 A theologically grounded treatment of what it means to be close to God Numerous Christian books aim to provide guidance on relationships with God but few base their conclusions on a biblical theology of intimacy In this volume Tim Anderson develops a biblical and holistic portrait of nearness to God exploring key themes like God s Trinitarian union

Scharff, Dr Monica Vorchheimer, 2018-03-26 This book widens the scope of clinical and theoretical contributions on Couple and Family Psychoanalysis by collecting case presentations and discussions by analysts from Europe North America Latin America China and Australia The rich cross fertilization across countries and analytic orientations stimulates cross cultural thinking and deepens clinical exploration In English language psychoanalysis focus on object relations theory emphasizes internalization of early family figures in construction of the psyche and their projective influence on others through continuing family interaction Theories of the link and of the field explored in South America and Europe shift focus from the internal life of the individual onto the influence of the other and the way superordinate unconscious patterns introjected from previous generations are recreated by interacting members of families and couples and in turn contribute to the continuing psychic evolution of individuals Work in other cultures such as China brings us face to face with deep structures of thought and family organization that challenge Western psychoanalytic assumptions even as those families are in rapid change themselves

The Ethical Seduction of the Analytic Situation Viviane Chetrit-Vatine, 2018-05-11 According to Jacques Andre the patient's encounter with the analyst is a scene of seduction the seductive statement being that of the fundamental rule or the invitation to address that which is most intimate or personal to a complete stranger But the practice of psychoanalysis can only unfold if there is a strict respect for ethics The words seduction and ethics which at first sight seem mutually exclusive are thus as the author shows at the heart of the analytic perspective The author takes as her starting point an

encounter which is not necessarily consensual between Emmanuel Levinas thought and his conception of philosophy as ethics ethics understood as responsibility for the other and that of the psychoanalyst Jean Laplanche who posits the first adult other as a seducer of the young psyche from the outset due to the transmission of enigmatic messages compromised by his or her unconscious The analyst's ethical position is re-examined and with it the feminine maternal origins of the human capacity for responsibility for the other

Resolving International Conflict Isabel Bramsen, Poul Poder, Ole Waever, 2019-05-03 Resolving

International Conflict rethinks the dynamics of conflict escalation and continuation by engaging with research from the wide range of subfields in this area. The book suggests a new framework for understanding conflict as a particular form of situation interaction and tension. It shows how conflicts are shaped by varied dynamics relating to emotion, securitization, incentives, digital technology, and violence, even attempts at monitoring, resolving, or remembering conflicts may end up contributing to their escalation or continuation. Split into two sections, the first part focuses on the question of why and how conflicts escalate, while the second part analyses the continuation of conflict. The book features several case studies of conflict escalation and continuation in Bahrain, Israel, Palestine, South Sudan, Northern Ireland, and most prominently the case of the Syrian uprising and subsequent civil war. Throughout the book, and in particular in the conclusion, the consequences for conflict transformation are discussed. This work will be of much interest to students of conflict resolution, peace studies, war and conflict studies, security studies, and international relations in general.

Diálogos clínicos

Ediciones Biebel, 2020-08-25. La psicoterapia psicoanalítica de familia y pareja es una práctica clínica que trata los sufrimientos psíquicos de los miembros de una familia o pareja en relación con la estructura de los vínculos familiares o de pareja. Esta práctica inscrita en el campo del psicoanálisis aplicado a los conjuntos plurisubjetivos y a los vínculos que se forman no sólo en las parejas y familias sino también en los grupos e instituciones postula que existe una realidad psíquica propia de estos conjuntos y sus vínculos. Esta extensión de la práctica psicoanalítica se desarrolló bajo el efecto de las grandes transformaciones que desde hace algunas décadas han contribuido al reconocimiento de formas y contenidos específicos de los problemas y sufrimientos que emergen y en parte son producidos en estos conjuntos. Me refiero a problemas de filiación y de transmisión de la vida psíquica entre generaciones, a la profunda crisis o falla de los garantes y las alianzas que estructuran el espacio psíquico subjetivo y el de los vínculos intersubjetivos y a la inseguridad de la base narcisista de los vínculos. Todos estos problemas afectan los procesos de subjetivación y simbolización y están estrechamente ligados a las formas del malestar contemporáneo.

Shame

Regulation Therapy for Families Uri Weinblatt, 2018-05-09. This accessible guide introduces systemic mirroring, an innovative approach to understanding and managing the disruptive presence of shame in family therapy. Shame is analyzed in individual and interpersonal contexts and in two basic problematic states: experiencing too much or too little shame, often found at the root of serious problems between children and their parents. The author offers potent conversation-based strategies for working with children, adolescents, and their families, and for working with parents to resolve their own shame issues so they can improve their relationships with their children. The author also illustrates how shame regulation can improve the bond between client and therapist and produce lasting effects as clients learn to disengage from shame. This practical resource offers an innovative approach to dealing with shame in therapy, integrates practical methods for use with children, adolescents, and parents, discusses how shame derails interpersonal communication, provides interventions for shame management and dealing with the state of shamelessness, and shows how parents can regulate their own shame at the

couple level Applies these methods to school settings Shame Regulation Therapy for Families aides the work of professionals such as psychologists psychiatrists social workers and school psychologists who work with children and their families on shame management

Shame and the Self Francis J. Broucek,1991-04-26 In this ambitious new work Frank Broucek explores the affect of shame its functions and its relationship to sexuality self and others With a special focus on the relationship between shame and self objectification he proposes an innovative new theory that links shame to our sense of self from early development through maturity In exploring this theme Broucek a psychoanalytically trained psychiatrist breaks new ground in understanding the development of the self establishing a perspective on narcissism that differs markedly from traditional psychoanalytic concepts An illuminating overview of the modern literature precedes a provocative analysis of the role of shame in the formation of the self Here Broucek identifies the three major sources of shame the infant's experiences of interpersonal inefficacy self objectification resulting in a kind of self alienation or primary dissociation and the experience of being unloved rejected or scapegoated by important others In the course of development these vectors cause the self's overinvestment in the idealized self image and a devaluation of the actual self an event explored in depth in the chapter on narcissism Broucek also addresses the role of shame in psychoanalysis and in society The neglect of this emotion in psychoanalytic theory and technique the author contends results from a critical lack of understanding of shame and its effect potentially adverse on the practice of psychotherapy Finally Broucek's analysis of widespread shamelessness in modern times logically extends the ideas presented earlier Maintaining a critical balance in its coverage and interpretation SHAME AND THE SELF marks a significant contribution to the understanding of the nature of shame and its role in our psychic life As such it is essential reading for all practicing psychiatrists psychologists social workers and other mental health practitioners
