Rome Postmodern Narratives Of A Cityscape:

Rome, Postmodern Narratives of a Cityscape Dom Holdaway, 2015-10-06 Until the mid twentieth century the Western imagination seemed intent on viewing Rome purely in terms of its classical past or as a stop on the Grand Tour This collection of essays looks at Rome from a postmodern perspective including analysis of the city s unmappability its fragmented narratives and its iconic status in literature and film Paolo Portoghesi Silvia Micheli, Léa-Catherine Szacka, 2023-10-19 Through the work of the Italian architect theorist and historian Paolo Portoghesi 1931 2023 this book offers a new perspective on postmodern architecture showing the agency of other spheres of knowledge history politics and media in the making of postmodern architectural discourse It explores how Portoghesi s personal postmodern project was based on the triangulation of a renewed interest in historical architectural language unprecedented use of media and intertwined links between architecture and politics Organized in a sequence of critical chapters supported by the analysis of Portoghesi s most significant architectural projects including Casa Baldi 1959 The Mosque in Rome 1975 95 and his Strada Novissima exhibition 1980 and publications the book unfolds around the three main themes of history politics and media Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects the study features previously unpublished archival material interviews by the authors and articles from professional and mainstream press to present Portoghesi in his multifaceted role of mediator politician historian and designer Histories of Architecture Education in the United States Peter L. Laurence, 2023-10-31 Histories of Architecture Education in the United States is an edited collection focused on the professional evolution experimental and enduring pedagogical approaches and leading institutions of American architecture education Beginning with the emergence of architecture as a profession in Philadelphia and ending with the early work but unfinished international effort of making room for women and people of color in positions of leadership in the field this collection offers an important history of architecture education relevant to audiences both within and outside of the United States Other themes include the relationship of professional organizations to educational institutions the legacy of late nineteenth century design concepts the role of architectural history educational changes and trans Atlantic intellectual exchanges after WWII and the Cold War the rise of the city and urban design in the architect s consciousness student protests and challenges to traditional architecture education and the controversial appearance of environmental activism This collection in other words provides a relevant history of the present with topics of concern to all architects studying and working today **Through Time and the City** Kristi Cheramie, Antonella De Michelis, 2020-09-21 Through Time and the City Notes on Rome offers a new approach to exploring cities Using Rome as a guide the book follows familiar sites geographies and characters in search of their role within a larger narrative that includes the environmental processes required to generate enough space and material for the city the emergent ecologies to which its buildings play host and the social patterns its various structures help to organize

Through Time and the City argues that Rome is made and unmade by an endlessly evolving chorus that has for better or worse gained geological legitimacy that the city absorbs and emits countless artifacts in its search for collective identity that the city is a platform for the constant staging of negotiations between agents humans buildings plants animals pathogens goods waste water that drive and are driven by the entanglements of climate and culture This book provides textual and visual frameworks for identifying the material traces emergent patterns or speculated futures that expose a city as inseparable from its capacity to change **Women and the Reinvention of the Political** Maud Anne Bracke,2014-07-11

This is the first in depth study of the feminist movement that swept Italy during the long 1970s 1968 1983 and one of the first to use a combination of oral history interviews and newly released archive sources to analyze the origins themes practices and impacts of second wave feminism While detailing the local and national contexts in which the movement operated it sees this movement as transnationally connected Emerging in a society that was both characterized by traditional gender roles and a microcosm of radical political projects in the wake of 1968 the feminist movement was able to transform the lives of thousands of women shape gender identities and roles and provoke political and legislative change More strongly mass based and socially diverse than its counterparts in other Western countries at the time its agenda encompassed questions of work unpaid care work sexuality health reproductive rights sexual violence social justice and self expression The case studies detailing feminist politics in three cities Turin Naples and Rome are framed in a wider analysis of the movement s emergence its transnational links and local specificities and its practices and discourses The book concludes on a series of hypotheses regarding the movement s longer term impacts and trajectories taking it up to the Berlusconi era and the present day

Mediated Messages Véronique Patteeuw,Léa-Catherine Szacka,2018-06-14 Mediated Messages presents a collection of original writing exploring the role played by the media in the development of postmodern architecture in the 1970s and 80s The book s twelve chapters and case studies examine a range of contemporary periodicals and exhibitions to explore their role in the postmodern This focus on mediation as a key feature of architectural post modernism and the recognition that post modernism grew out of developments in the media opens up the possibility of an important new account of post modernism distinct from existing narratives Accompanied by a contextualizing introduction the essays are arranged across four thematic sections covering images international postmodernisms high and low culture and postmodern architects as theorists and present a range of case studies with a genuinely international scope Altogether this work makes a substantial contribution to the historical account of architectural postmodernism and will be of great interest to researchers in postmodernism as well as those examining the role of the media in architectural history **Cityscaping** Therese

Fuhrer,Felix Mundt,Jan Stenger,2015-05-19 The term cityscaping is here introduced to characterise the creative process through which the image of the city is created and represented in various media text film and artefacts It thus turns attention away from built urban spaces and onto mental images of cities One focus is on the question of which literary visual and

acoustic means prompt their recipients spatial imagination another is to inquire into the semantics and functions that are ascribed to the image of a city as constructed in various media The examples of ancient texts and works of art and modern literature and films are used to elucidate the artistic potential of images of the city and the techniques by which they are semanticised With its interdisciplinary approach the volume for the first time makes clear how strongly mental images of urban space both ancient and modern have been shaped by the techniques of their representation in media **A**
