Part A: Completion

Fill in the blanks with the correct word or phrase. Write your answers in the spaces provided.

The nervous system is a complex system that controls and coordinates the body's activities. It is composed of the brain, spinal cord, and peripheral nerves. The brain is the central control center, and the spinal cord is the main communication pathway between the brain and the rest of the body. The peripheral nerves are the branches of the nervous system that carry signals to and from the rest of the body.

The nervous system is divided into two main parts: the central nervous system (CNS) and the peripheral nervous system (PNS). The CNS is located in the brain and spinal cord, and the PNS is located in the rest of the body. The CNS is responsible for processing information and making decisions, while the PNS is responsible for carrying signals to and from the rest of the body.
