Deciphering Goffman

Ramon Vargas Maseda, 2017-03-27 Challenging the classical conception of Goffman's sociology this book offers a new interpretation based on a comprehensive examination of previous interpretations and critical assessments of Goffman's work Epistemologically the book acknowledges the important but overlooked influences of both pluralism and particularly of pragmatism where not only Simmel but also James and Dewey played a pivotal role in his work thus rooting Goffman's thought in symbolic interactionism With attention to two central theoretical principles underlying his work the pertinence of studying social interaction as given and the need and warrant to study face to face interaction in its own right the author presents a rigorous examination of Goffman's own writings to uncover the clear and recognizable process of systematization that Goffman followed throughout In this manner the book reveals the structure of Goffman's theory by way of mapping the main themes topics concepts empirical referents methodological principles and theoretical frameworks relevant to the structure of his thought A fresh examination of the structure of Goffman's work that sheds light on the core of his unique approach this new study of one of the central figures of sociology constitutes an important contribution to scholarship in social theory and the history of sociology

Performing the Literary Interview John Rodden, 2001-01-01

When authors are interviewed about their books or themselves much more is going on than a simple conversation The interview becomes a performance space for authorial orchestration and self promotion and interviewers in turn respond to such self display and theatrics Featuring absorbing conversations with nine well known authors including poets Richard Howard and Gerald Stern novelist Isabel Allende and scholar intellectual Camille Paglia Performing the Literary Interview is the first in depth look at

this type of performance art Interviews with poets fiction writers and intellectuals enable John Rodden to identify a range of rhetorical strategies and their effects and to formulate a typology for appreciating the various roles that interviewers and interviewees assume Traditionalists foreground their work rather than themselves raconteurs are storytellers who skillfully spin anecdotes and creatively showcase their personalities and advertisers more explicitly use the literary interview to promote and sell themselves This pioneering persuasive study stakes a claim to a new area of scholarly inquiry in the humanities The literary interview can no longer be considered only as a voyeuristic window on an author or a celebrity vehicle or even an entertaining diversion but should also be approached as a serious genre meriting scholarly attention and analysis

Conversations with Bernard Malamud Bernard Malamud, 1991 During his teaching career Bernard Malamud taught both creative writing and literature courses and indicated that he almost never taught his own works since an author cannot dictate the total meaning of his work to a classroom He was consistently reluctant in interviews as well to explain his fiction He valued imaginative interpretations whether I agree with them or not He rejected the notion that there was a correct interpretation of his work
