I. Scale Description

Self-Report of Delinquency instruments are well known and frequently used. Their advantages and disadvantages have been discussed in the literature (Huizinga and Elliott, 1986; Klein, 1988). The latter reference is a book containing several chapters of interest. The Self-Report of Delinquency (SRD) used in the Fast Track Project was previously used for the Pittsburgh Youth Study. In the SRD, participants describe their delinquent activities, tapping the areas of property damage, theft, assault, and substance use. For each type of delinquent act, the participant is asked whether he/she ever committed it, how many times in the past year, if others were involved, and if he/she was under the influence of alcohol or drugs while committing it.

II. Report Sample

Analyses were conducted on Cohort 1 year 12 normative (n=387) and Cohort 1 high-risk control samples (n=155, overlap is 79). One hundred nineteen students were missing the entire measure (26% of the sample), including 105 from the normative sample (27% of the sample) and 44 of the control sample (28% of the sample). The non-respondents included 17 students

Controlling Crime Philip J. Cook, Jens Ludwig, Justin McCrary, 2011-08-22 Criminal justice expenditures have more than doubled since the 1980s dramatically increasing costs to the public With state and local revenue shortfalls resulting from the recent recession the question of whether crime control can be accomplished either with fewer resources or by investing those resources in areas other than the criminal justice system is all the more relevant Controlling Crime considers alternative ways to reduce crime that do not sacrifice public safety Among the topics considered here are criminal justice system reform social policy and government policies affecting alcohol abuse drugs and private crime prevention Particular attention is paid to the respective roles of both the private sector and government agencies Through a broad conceptual framework and a careful review of the relevant literature this volume provides insight into the important trends and patterns of some of the interventions that may be effective in reducing crime

Escape Routes: Contemporary Perspectives on Life after Punishment Stephen Farrall, Richard Sparks, Shadd Maruna, Mike Hough, 2010-12-15 Escape Routes Contemporary Perspectives on Life After Punishment addresses the reasons why people stop offending and the processes by which they are rehabilitated or resettled

back into the community Engaging with and building upon renewed criminological interest in this area Escape Routes nevertheless broadens and enlivens the current debate First its scope goes beyond a narrowly defined notion of crime and includes for example essays on religious redemption the lives of ex war criminals and the relationship between ethnicity and desistance from crime Second contributors to this volume draw upon a number of areas of contemporary research including urban studies philosophy history religious studies and ethics as well as criminology Examining new theoretical work in the study of desistance and exploring the experiences of a number of groups whose experiences of life after punishment do not usually attract much attention Escape Routes provides new insights about the processes associated with reform resettlement and forgiveness Intended to drive our understanding of life after punishment forward its rich array of theoretical and substantive papers will be of considerable interest to criminologists lawyers and sociologists

Personality Disorder and Serious Offending Christopher Newirth, Clive Meux, Pamela Taylor, 2006-03-31 People with personality disorder who offend tend to be neglected by health services in most countries In the UK there has been renewed interest in the field since government initiatives in the end of the 1990s Government proposals themselves are controversial but there is growing recognition that it is unsafe both for the general public and for

Delinquency, Development, and Social Policy David E. Brandt, 2008-10-01 In this book David E Brandt examines the legal psychological and cultural issues relevant to understanding antisocial behavior in adolescence Based on his own research and a broad analysis of recent work in the field Brandt identifies the factors that are common in cases of delinquency The discussion considers the long term effects of social issues such as poverty as well as psychological issues such as the high levels of stress and anxiety suffered during childhood by many delinquents He shows how a failure to meet the developmental needs of children at both the family level and at a broader social and political level is at the core of the problem of juvenile delinquency Brandt concludes with an inquiry into how best to prevent delinquency Programs that address the developmental needs of children Brandt argues are more effective than policing juvenile courts or incarceration

Farrington, Doris Layton MacKenzie, Lawrence W. Sherman, Brandon C. Welsh, 2003-09-02 Comprehensive reviews 675 crime prevention programs across the world Employs the easy to understand scientific methods scale to communicate data on what works and what does not to policy makers and practitioners as well as students and researchers Farrington is a big name on both sides of the Atlantic has been president of American Society of Criminology and British Society of Criminology as well as European Association of Psychology and Law Preventing and Reducing Juvenile Delinquency James C. Howell, 2003-02-24 This book aims to inform students about the latest research and the most promising and effective programs and for understanding preventing and controlling juvenile delinquency The book is geared to preparing students for a career in juvenile justice or related social service systems and becoming research or program development specialists The history of current juvenile

justice system policies and practices are examined including the juvenile violence epidemic Key myths about juvenile violence and the ability of the juvenile justice system to handle modern day juvenile delinquents are critically examined Developmental theories of juvenile delinquency are applied to understanding how juvenile offender careers evolve Effective prevention and rehabilitation programs and what does not work are reviewed A comprehensive framework for building a continuum of effective programs is presented in Part III *Crime and Justice, Volume 42: Crime and Justice in America* Michael Tonry, 2013-10-06 For the American criminal justice system 1975 was a watershed year Offender rehabilitation and individualized sentencing fell from favor The partisan politics of law and order took over Among the results four decades later are the world's harshest punishments and highest imprisonment rate Policymakers interest in what science could tell them plummeted just when scientific work on crime recidivism and the justice system began to blossom Some policy areas sentencing gun violence drugs youth violence became evidence free zones In others developmental crime prevention policing recidivism studies evidence mattered *Crime and Justice in America 1975-2025* tells how policy and knowledge did and did not interact over time and charts prospects for the future What accounts for the timing of particular issues and research advances What did science learn or reveal about crime and justice and how did that knowledge influence policy Where are we now and perhaps even more important where are we going The contributors to this volume the leading scholars in their fields bring unsurpassed breadth and depth of knowledge to bear in answering these questions They include Philip J Cook Francis T Cullen Jeffrey Fagan David Farrington Daniel S Nagin Peter Reuter Lawrence W Sherman and Franklin E Zimring For thirty five years the *Crime and Justice* series has provided a platform for the work of sociologists psychologists criminal lawyers justice scholars and political scientists as it explores the full range of issues concerning crime its causes and its remedies Preventing Bullying Through Science, Policy, and Practice National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Board on Children, Youth, and Families, Committee on the Biological and Psychosocial Effects of Peer Victimization: Lessons for Bullying Prevention, 2016-09-14 Bullying has long been tolerated as a rite of passage among children and adolescents There is an implication that individuals who are bullied must have asked for this type of treatment or deserved it Sometimes even the child who is bullied begins to internalize this idea For many years there has been a general acceptance and collective shrug when it comes to a child or adolescent with greater social capital or power pushing around a child perceived as subordinate But bullying is not developmentally appropriate it should not be considered a normal part of the typical social grouping that occurs throughout a child's life Although bullying behavior endures through generations the milieu is changing Historically bullying has occurred at school the physical setting in which most of childhood is centered and the primary source for peer group formation In recent years however the physical setting is not the only place bullying is occurring Technology allows for an entirely new type of digital electronic aggression cyberbullying which takes place

through chat rooms instant messaging social media and other forms of digital electronic communication Composition of peer groups shifting demographics changing societal norms and modern technology are contextual factors that must be considered to understand and effectively react to bullying in the United States Youth are embedded in multiple contexts and each of these contexts interacts with individual characteristics of youth in ways that either exacerbate or attenuate the association between these individual characteristics and bullying perpetration or victimization Recognizing that bullying behavior is a major public health problem that demands the concerted and coordinated time and attention of parents educators and school administrators health care providers policy makers families and others concerned with the care of children this report evaluates the state of the science on biological and psychosocial consequences of peer victimization and the risk and protective factors that either increase or decrease peer victimization behavior and consequences
