Input/ "Teacher Doer"	All tasks and activities will be modeled by a teacher or a peer model, unless the activity is for the purpose of program monitoring.					
Connection to Previous Learning	1st- Students are continuously working on identifying, writing, and/or writing their personal information as is the skill.	2nd- Students are using their knowledge of letters, sounds, and words.	3rd- Students will continue improving their fine motor skills.	4th- Students are connecting their knowledge of instruments, styles of music, and culture.	5th- Students are using their knowledge of numbers and counting.	7th- Students will be continuing to enhance their life skills by completing different chores weekly.
Activity Explanation	1st- Students will complete their morning binder (which includes handwriting, reading, personal info., and skills the student is currently working on).	2nd- Students will be given either letters or sight words to identify by coloring.	3rd- Students will be working on their fine motor skills while painting a holiday picture with q-tips.	4th- Student will be exposed to new instruments and genres about them by Mr. Alexander.	5th- Students will roll a die, count the dots, and find the amount on a sheet and cover it.	7th- Students will complete jobs such as: mop, vacuum, sharpen pencils, check choir, clean tables, collect trash, organize library, etc.
CPU	Teacher and peer model will check for understanding with the student(s) they are working with every 5-10 minutes (unless it is needed more frequently).					
Accommodations/ Modifications	1:1 will be typical for most students throughout each class period. Occasionally (but not often,) there may be a 2:1 situation, small group, whole group, or independent student learning. All of my students work with a continuous token system throughout the day. They identify what they are working for (snack, walk, break, music, etc.) and earn 1 token per activity. Once they have gotten 3 tokens, they earn the reward they were working for. Then, the cycle begins again as they begin working again. Some students may receive more than 1 token for an activity depending on how much work was required for that individual student. Multiple intelligences and sensory needs will be addressed. Some students utilize communication devices.
