Vigilantism and the Global (Re)Production of Collective Violence Gavin Weston, 2019-08-23 This book grounds an understanding of lynching as an increasingly globalised phenomenon through an examination of two cases in Guatemala. The chapters cover issues of migration, tourism, gangs, inter-generational conflict, media gossip and rumour to understand national and global patterns of mob-based vigilantism and how diverse factors are funnelled into singular acts of violence. Gavin Weston critically engages with the discussion of Guatemalan lynchings as a form of post-conflict violence alongside other less direct chains of causation. Lynchings have complex, tiered causations based in contestations regarding ideas and provision of justice. Underlying social problems and similarities in the way lynchings spread through talk and media make them relatively anticipatable in certain contexts and suggest possible spaces for mitigation against their viral spread. This volume will be relevant to Latin Americanists and those interested in the anthropology and sociology of violence, post-conflict violence and peace studies.

Piracy and Intellectual Property in Latin America Víctor Goldgel-Carballo, Juan Poblete, 2020-03-03 Piracy and Intellectual Property in Latin America is the first sustained effort to present an alternative framework for understanding piracy and contemporary challenges to global discourses on intellectual property (IP) in the Americas. While piracy might just look like theft and derivative reproduction from the perspective of many right holders, the contributors to this volume go beyond this economic-driven logic and show how practices of copying are in fact practices of reinvention that reflect the rich social networks and forms of creativity, authorship, commerce and consumption that characterize informal economies. From a perspective informed by contemporary scenarios in Mexico, Brazil, Chile, Argentina, Peru, Guatemala and the United States, they engage in a discussion of alternatives that predicated on the importance of protecting culture allow for other ways of conceiving prosperity at local, national, regional and global levels. Examples discussed include video games, clothing, trinkets, music, film, TV and books. Designed to help understand the broader implications of IP and piracy for the field of Latin American studies, this book will be a major contribution to Global South studies as well as to the growing bibliography on globalization, informal markets and piracy.

Lloyd, 2020 Changes in the American religious landscape enabled the rise of mass incarceration Religious ideas and practices also offer a key for ending mass incarceration These are the bold claims advanced by *Break Every Yoke* the joint work of two activist scholars of American religion Once in an era not too long past Americans both incarcerated and free spoke a language of social liberation animated by religion In the era of mass incarceration we have largely forgotten how to dream and organize this way To end mass incarceration we must reclaim this lost tradition Properly conceived the movement we need must demand not prison reform but prison abolition *Break Every Yoke* weaves religion into the stories about race politics and economics that conventionally account for America's grotesque prison expansion of the last half century and in so doing it sheds new light on one of our era's biggest human catastrophes By foregrounding the role of religion in the way political elites religious institutions and incarcerated activists talk about incarceration *Break Every Yoke* is an effort to stretch the American moral imagination and contribute resources toward envisioning alternative ways of doing justice By looking back to nineteenth century abolitionism and by turning to today's grassroots activists it argues for reclaiming the abolition spirit

Crime and Justice, Volume 51 Michael Tonry, Sandra Bucerius, 2023-01-04 Volume 51 is a thematic volume on Prisons and Prisoners Since 1979 the Crime and Justice series has presented a review of the latest international research providing expertise to enhance the work of sociologists psychologists criminal lawyers justice scholars and political scientists The series explores a full range of issues concerning crime its causes and its cures In both the review and the occasional thematic volumes Crime and Justice offers an interdisciplinary approach to address core issues in criminology Volume 51 of Crime and Justice is the first to reprise a predecessor Prisons Volume 26 1999 edited by series editor Michael Tonry and the late Joan

Petersilia In Prisons and Prisoners editors Michael Tonry and Sandra Bucerius revisit the subject for several reasons In 1999 most scholarly research concerned developments in Britain and the United States and was published in English Much of that was sociological focused on inmate subcultures or psychological focused on how prisoners coped with and adapted to prison life Some principally by economists and statisticians sought to measure the crime preventive effects of imprisonment generally and the deterrent effects of punishments of greater and lesser severity In 2022 serious scholarly research on prisoners prisons and the effects of imprisonment has been published and is underway in many countries That greater cosmopolitanism is reflected in the pages of this volume Several essays concern developments in places other than Britain and the United States Several are primarily comparative and cover developments in many countries Those primarily concerned with American research draw on work done elsewhere The subjects of prison research have also changed Work on inmate subcultures and coping and adaptation has largely fallen by the wayside Little is being done on imprisonment's crime preventive effects largely because they are at best modest and often perverse An essay in Volume 50 of Crime and Justice examining the 116 studies then published on the effects of imprisonment on subsequent offending concluded that serving a prison term makes ex prisoners on average more not less likely to reoffend In 1999 little research had been done on the effects of imprisonment on prisoners families children or communities or even except for recidivism on ex prisoners later lives family life employment housing physical and mental health or achievement of a conventional law abiding life The first comprehensive survey of what was then known was published in the earlier Crime and Justice Prisons volume An enormous literature has since emerged as essays in this volume demonstrate Comparatively little work had been done by 1999 on the distinctive prison experiences of women and members of non White minority groups That too has changed as several of the essays make clear What is not clear is the future of imprisonment Through more contemporary and global lenses the essays featured in this volume not only reframe where we are in 2022 but offer informed insights into where we might be heading
