**The Leadership Training Activity Book** Lois Borland Hart, Charlotte S. Waisman, 2005 Leadership development is self development. The quest for leadership is first an inner quest to discover who you are. That is clearly the premise of this wonderful collection of developmental activities. They guide learners on that fascinating journey of self awareness and self confidence that can only come from experiencing something in themselves for themselves. From the foreword by James M. Kouzes, co-author of *The Leadership Challenge*. When it comes to preparing a new generation of leaders, trainers have their work cut out for them. In addition to being a critical competency in itself, the task of leadership necessarily involves mastering a whole host of other skills, and it's up to you as a trainer to keep participants engaged and active throughout the learning process. *The Leadership Training Activity Book* is a collection of engaging, sure-fire exercises based on the best, most up-to-date learning theory for preparing the leaders of tomorrow. The book features easily adaptable modules designed for beginning to advanced skill levels, short or long sessions, and large or small groups. You'll find the perfect training exercises to help new and experienced leaders improve their understanding of crucial topics such as trust, values, networking, conflict resolution, diversity, negotiation, listening skills, mentoring, vision, communication, and more. *The Leadership Training Activity Book* provides trainers with a wide range of activities to help teach and apply the most critical leadership competencies participants need, enabling you to develop and liberate the leadership qualities learners already have within themselves. It is a unique collection of proven exercises that will elicit the best from those who wish to lead.

*The Emotional Intelligence Activity Book* Adele Lynn, 2001-12-26 We've all heard of IQ, but what's EQ? It's Emotional Quotient, aka Emotional Intelligence, and experts say that EQ is a greater predictor of success at work than IQ. Companies are increasingly looking for ways to motivate and develop their employees' emotional intelligence. This book presents trainers and coaches with 50 innovative exercises to be used for either individuals or groups. The activities found in the book are grouped according to the various core competencies associated with Emotional Intelligence: Self Awareness and Control, an awareness of one's values, emotions, skills, and drives, and the ability to control one's emotional responses; Empathy, an understanding of how others perceive situations; Social Expertness, the ability to build relationships based on an assumption of human equality; Mastery of Vision, the development and communication of a personal philosophy. The book also includes suggested training combinations and coaching tips.
