Handbook of Personality Development Daniel K. Mroczek, Todd D. Little, 2014-02-25

This handbook is the first volume to provide a comprehensive look at personality development It features a state of the art examination of the field an area that is enjoying a resurgence in popularity Five major types of advances all of which are represented in this volume are the result of the recent burst in research activity in this area 1 new theoretical perspectives 2 higher quality empirical studies 3 more sophisticated research designs and analyses 4 attention to development across the lifespan and 5 the growing prominence of interdisciplinary approaches to personality development The Handbook of Personality Development is comprehensive across the lifespan in its range of personality constructs and in its coverage of theoretical and methodological frameworks It is the first volume to address the most important personality

development theoretical frameworks in one location the evolutionary physiological behavioral genetic and socio cultural perspectives The book also reviews new statistical techniques that allow for the estimation of individual differences in stability and the analysis of change The latter part of the book focuses on personality development over the lifespan from infancy to older adulthood The authors address personality variables such as emotion regulation temperament and self concept across the lifespan The book concludes with a compelling capstone chapter by Dan McAdams on how personality develops The Handbook of Personality Development provides an historical account of and summary of the most significant and important findings in the area along with suggestions for future research Intended for researchers and advanced students in personality developmental social clinical and educational psychology as well as related fields such as family studies sociology education nursing behavioral genetics neuropsychology and psychophysiology the handbook also serves as a valuable resource in advanced courses that address personality development

Sport and Education: Tribute to Martin Lee Carlos Eduardo Gonçalves, Sean P. Cumming, Manuel J. Coelho e Silva, Robert M. Malina, 2006-12-01 This book has been produced as a tribute to the work of Martin Lee on the role of sport in the socio moral education of young people After conducting the first UK conference on Children in Sport founded the Institute for the Study of Children in Sport at Bedford College of Higher Education in 1986 and created level 1 2 and 3 courses on coaching children for the National Coaching Foundation He also edited a book on Coaching Children in Sport His course book on Coaching Children in Mini basketball was produced for international distribution The study of values has been central in Martin s research which also embraced such topics as self concept leadership coaching behaviour and parental influence In a series of research commissions examined the literature clarified measurement requirements identified values activated in sport and led an international project on fair play He then ran a survey to show how values influence attitudes directly and through the mediation of achievement goals Two new instruments arose from this research the Attitudes to Moral Decision making in Youth Sport Questionnaire and the Youth Sport Values Questionnaire 2 These will open up research into gamesmanship by which competitors seek an unfair advantage without breaking the rules and into the mechanisms by which moral competence and status values guide behaviour and create value conflicts I am also grateful to colleagues at the University of Coimbra for their initiative in gathering the distinguished international scholars who have contributed to this book Their collective insights will enhance the understanding of socio moral education through sport and lead to informed and sensitive policy development in both sport and education
