New Jersey Register, 2014-04 *The New Jersey State Constitution* Robert F. Williams, Ronald K. Chen, 2023 The New Jersey State Constitution is a thoroughly revised new edition that provides an extensive historical account and constitutional analysis of the state's governing charter. In addition to an overview of New Jersey's constitutional history, it provides an in-depth section-by-section analysis of the entire constitution, detailing the many significant changes that have been made since its initial drafting. This treatment, along with a table of cases, index, and bibliography, is an essential resource for students, scholars, and practitioners of New Jersey's constitution. State constitutions perform different functions and contain different provisions from the more familiar U.S. Constitution. The book first outlines the historical development of New Jersey's state constitution from 1776 to the present and explains the highlights of the process of state constitutional development leading to the current New Jersey constitution. Next, each section of the current constitution is analyzed, including its origins, general intent, and purpose, and important judicial interpretations illustrating the types of situations in which the section can come into play, including references to key academic analysis of each section. Careful explanation is provided with illustrations from cases of the complex and evolving relationship between rights guaranteed by the U.S. Constitution and rights guaranteed by the New Jersey constitution. In many instances, New Jersey's rights can be more protective than those included in the Federal Constitution. Finally, the book provides a thorough bibliographical essay reviewing the evolution of the New Jersey constitution.

The Performative State Iza Yue Ding, 2022-09-15 What does the state do when public expectations exceed its governing capacity? *The Performative State* shows how the state can shape public perceptions and defuse crises through the theatrical deployment of language, symbols, and gestures of good governance. Performative governance, Iza Ding unpacks the black box of street-level bureaucracy in China through ethnographic participation in depth interviews and public opinion surveys. She demonstrates in vivid detail how China's environmental bureaucrats deal with intense public scrutiny over pollution when they lack the authority to actually improve the physical environment. They assuage public outrage by appearing responsive, benevolent, and humble. But performative governance is hard work. Environmental bureaucrats paradoxically work themselves to exhaustion even when they cannot effectively implement environmental policies. Instead of achieving performance legitimacy by delivering material improvements, the state can shape public opinion through the theatrical performance of goodwill and sincere effort. *The Performative State* also explains when performative governance fails at impressing its audience and when governance becomes less performative and more substantive. Ding focuses on Chinese evidence, but her theory travels. Comparisons with Vietnam and the United States show that all states, democratic and authoritarian alike, engage in performative governance.

Rethinking Governance Mark Bevir, R. A. W. Rhodes, 2016-03-31 This volume explores new directions of governance and public policy arising both from interpretive political science and those who engage with interpretive ideas It conceives governance as the various policies and outcomes emerging from the increasing salience of neoclassical and institutional economics or neoliberalism and new institutionalisms In doing so it suggests that that the British state consists of a vast

array of meaningful actions that may coalesce into contingent shifting and contestable practices Based on original fieldwork it examines the myriad ways in which local actors civil servants mid level public managers and street level bureaucrats have interpreted elite policy narratives and thus forged practices of governance on the ground This book will be of key interest to scholars students and practitioners of governance and public policy *Subject Catalog* Library of Congress, **Judicial Dis-Appointments** Mitchel de S. -O. -l'E. Lasser,2020-10-11 In 2009 and 2010 the European Court of Justice and the European Court of Human Rights underwent significant reforms to their respective judicial appointments processes Though very different judicial institutions they adopted very similar and rather remarkable reforms each would now make use of an expert panel of judicial notables to vet the candidates proposed to sit in Luxembourg or Strasbourg Once established these two vetting panels then followed with actions no less extraordinary they each immediately took to rejecting a sizable percentage of the judicial candidates proposed by the Member State governments What had happened Why would the Member States of the European Union and of the Council of Europe which had established judicial appointments processes that all but ensured themselves the unfettered power to designate their preferred judges to the European courts and who had zealously maintained and exercised that power over the course of some fifty years suddenly decide to undermine their own capacity to continue to do so This book sets out to solve this mystery Its point of departure is that it would be a mistake to view the 2009 2010 establishment of the two vetting panels in isolation from other European judicial developments Though these acts of institutional creation are certainly the most notable recent developments they actually represent but the crowning achievement of a process of European judicial appointments reform that has been running unrelentingly since the 1990 s This longstanding and tenacious movement has actually triggered a broad set of interrelated debates and reforms encompassing not only judicial appointments per se but also a much wider set of issues including judicial independence judicial quality judicial councils the separation of powers judicial gender equity and more **An Emerging Asian Model of Governance and Transnational Knowledge Transfer** Ting-Yan Wang,Hong Liu,2020-06-29 Although Asia has a long history of governance practices its modern governance systems have been profoundly influenced by the Western models This book explores how the declining economic and political influences on the global stage of the USA and Europe has significantly reduced developing countries confidence in the public governance models promoted by the Western world As academics have begun to challenge the assuredness of the conventional logic of Western Global Best scholarship has also grown on the contextualized governance experiences in Asia This timely volume explores the emergence of Asian models of governance taking into account the shifting global political economic landscape and the region s rapid growth in recent decades Could there be Asian models of governance that are distinct from the Western ones If so what are the key characteristics The authors examine the potentials and challenges of Asian models of governance based on empirical studies from various Asian societies ranging from Singapore and South Korea to Myanmar and Vietnam As well as theoretical

explorations the book also provides rich empirical evidence on the contextualized lessons accumulated in Asia offering a more nuanced understanding of Asian governance experience through comparative case studies This book was originally published as a special issue of the Journal of Asian Public Policy which was supported by the Singapore Ministry of Education AcRF Tier 2 Grant entitled Transnational Knowledge Transfer and Dynamic Governance in Comparative Perspective
