also what America can become What are the determinants of immigration policymaking in the United States The Politics of Immigration focuses the analytical lens on the electoral incentives that legislators in Congress have to support or oppose immigration policy reforms at the federal level In contrast to previous arguments Tom K Wong argues that contemporary immigration politics in the United States can be characterized by three underlying features the entrenchment of partisan divides among legislators on the issue of immigration the political implications of the demographic changes that are reshaping the American electorate and how these changes are creating new opportunities to define what it means to be an American in a period of unprecedented national origins racial and ethnic and cultural diversity **Parenting Culture**
