Paul Ricoeur between Theology and Philosophy Boyd Blundell,2010-05-25 Paul Ricoeur 1913 2005 remains one of philosophy of religion s most distinctive voices Ricoeur was a philosopher first and while his religious reflections are very relevant to theology Boyd Blundell argues that his philosophy is even more relevant Using Ricoeur s own philosophical hermeneutics Blundell shows that there is a way for explicitly Christian theology to maintain both its integrity and overall relevance He demonstrates how the dominant pattern of detour and return found throughout Ricoeur s work provides a path to understanding the relationship between philosophy and theology By putting Ricoeur in dialogue with current fundamental and longstanding debates about the role of philosophy in theology Blundell offers a hermeneutically sensitive engagement with Ricoeur s thought from a theological perspective

Human and Divine Being Donald Wallenfang,2017-04-10 Nothing is more dangerous to be misunderstood than the question What is the human being In an era when this question is not only being misunderstood but even forgotten wisdom delivered by the great thinkers and mystics of the past must be recovered Edith Stein 1891 1942 a Jewish Carmelite mystical philosopher offers great promise to resume asking the question of the human being In Human and Divine Being Donald Wallenfang offers a comprehensive summary of the theological anthropology of this heroic martyr to truth Beginning with the theme of human vocation Wallenfang leads the reader through a labyrinth of philosophical and theological vignettes spiritual being the human soul material being empathy the logic of the cross and the meaning of suffering The question of the human being is asked in light of divine being by harnessing the fertile tension between the methods of phenomenology and metaphysics Stein spurs us on to a rendezvous with the stream of perennial philosophy that has watered the landscape of thought since conscious time began In the end the meaning of human being is thrown into sharp relief against the darkness of all that is not authentically human

Kenneth A. Reynhout, 2013-06-20 The past fifty years has seen the emergence of an energetic dialogue between religion and the natural sciences that has contributed to a growing desire for interdisciplinarity among many constructive theologians. However, some have also resisted this trend in part because it seems that the price one must pay for such engagement is much too high. Interdisciplinary work appears overly abstract and methodologically restrictive with little room for systematic theologians self-consciously operating within a particular historical tradition. In *Interdisciplinary Interpretation: Paul Ricoeur and the Hermeneutics of Theology and Science*, Kenneth A. Reynhout seeks to address this concern by constructing an alternative understanding of interdisciplinary theology based on the hermeneutical thought of Paul Ricoeur, generally recognized as one of the most interdisciplinary philosophers of the twentieth century. Appealing to Ricoeur's view of interpretation as the dialectical process of understanding through explanation, Reynhout argues that theology's engagement with the natural sciences is fundamentally hermeneutical in character. As such, interdisciplinary theologians can faithfully borrow meaning from the sciences through a process of interdisciplinary interpretation, a process that can honestly attend to the legitimate challenges posed by the natural sciences without automatically requiring the evacuation of theological norms and convictions. Reynhout's creative appropriation of Ricoeur's hermeneutics succeeds in providing a novel interdisciplinary vision not only for theology but also for interdisciplinary work in general.

Essays in Phenomenology Maurice Natanson, 2013-12-19 Fifteen years ago Dorion Cairns concluded an article on phenomenology with a cautious appraisal of its influence in America. Thus far, he wrote, it continues to be an exotic. The situation today has changed. Translations of the writings of Husserl, Heidegger, Marcel Sartre, and Merleau-Ponty have appeared, and commentaries on these and related thinkers are not uncommon. Moreover, discussion of phenomenological problems is increasingly becoming part of the American, if not the British, philosophical scene. Phenomenology is in danger of domestication. Signs of its accommodation include a willingness to pay tribute to Husserl's *Logical Investigations* by those who find relatively little to interest them in his later work; a location of what are taken to be common themes and underlying convergences of emphasis in Continental phenomenology and Anglo-American philosophy of the more nearly Wittgensteinian and Austinian varieties; and a growing impatience shared by some phenomenologists with expositions, explications, and interpretations of Husserl's work at the expense of original applications of phenomenology. Most bluntly put, the attitude is: Don't talk about it, do it. It would seem that we have arrived at a point where introductions to phenomenology are of doubtful value, if not superfluous. The present collection of essays is based on different assumptions and points to an alternative conception of the role of both methodology and originality in phenomenological work.
