

Northwestern University Supplemental Essay

Prompt:

Describe the person who inspires you the most.

When I was in my second year in high school, there was a senior student whom I have particularly taken some interest with. Appearance wise, I consider her a normal student. She is not part of the cheerleading team, but she was part of the school's Red Cross club. I never see her laughing loudly with other girls in her class. Rather, I don't know why but I always end up seeing her helping another person.

One day, I saw her helping an old woman cross the street in her neighborhood. I thought that only happened in story books and movies, but there I saw her doing that. At one time, I saw her walking in an alley near our school, and the student, a freshman, walking in front of her threw her rubbish on the road, she stopped to collect the garbage and ran after the student. She seemed to have explained the matter very calmly, and I saw the student scratching his head calmly, taking the garbage, went into the garbage can, throwing it nicely.

I have always admired her because of that. She became very influential to me without her knowing it that I often find myself imitating the things that she is doing. I also believe in helping others, and I want to do well. She does so effortlessly and with courage. I am not afraid of doing that too. However, I believe that I still need practice in order to cultivate that trait naturally in me. I do not have plans in telling that senior student that I have been observing and imitating her. But I do hope that by me imitating her, other people would also be inspired to do good to other people.

Northwestern Essay Topic 2013:

The Formation of the Modern Self Felix O Murchadha, 2022-01-13 Charting a genealogy of the modern idea of the self Felix Murchadha explores the accounts of self identity expounded by key Early Modern philosophers Montaigne Descartes Pascal Spinoza Hume and Kant The question of the self as we would discuss it today only came to the forefront of philosophical concern with Modernity beginning with an appeal to the inherited models of the self found in Stoicism Scepticism Augustinianism and Pelagianism before continuing to develop as a subject of philosophical debate Exploring this trajectory The Formation of the Modern Self pursues a number of themes central to the Early Modern development of selfhood including amongst others grace and passion It examines on the one hand the deep rooted dependence on the divine and the longing for happiness and salvation and on the other hand the distancing from the Stoic ideal of apatheia as philosophers from Descartes to Spinoza recognised the passions as essential to human agency Fundamental to the new question of the self was the relation of faith and reason Uncovering commonalities and differences amongst Early Modern philosophers Murchadha traces how the voluntarism of Modernity led to the sceptical approach to the self in Montaigne and Hume and how this sceptical strand in turn culminated in Kant's rational faith More than a history of the self in philosophy The Formation of the Modern Self inspires a fresh look at self identity uncovering not only how our modern idea of selfhood developed but just how embedded the concept of self is in external considerations from ethics to reason to religion

Phenomenalism, Phenomenology, and the Question of Time Adam Berg, 2015-12-15 Phenomenalism Phenomenology and the Question of Time A Comparative Study of the Theories of Mach Husserl and Boltzmann analyzes two interconnected themes the split between phenomenalism and phenomenology and the question of time in relation to physical processes and irreversibility in physics The first theme is the overlooked connections between the modern phenomenology of Edmund Husserl and his mentor Franz Brentano and phenomenalism as associated with Ernst Mach The book s historical conceptual perspective draws attention to the ways in which Husserl s twentieth century advance of phenomenological method was conceived in relation to Mach s late nineteenth century and early twentieth century work both in science and philosophy At first glance Mach s phenomenalism appears to be in stark contrast to Husserl s phenomenology but on closer inspection it influenced and informed its inception By analyzing Husserl s revolutionary method of phenomenology in connection to Mach s earlier conceptions the book elucidates the rise of modern physics especially through the work of Ludwig Boltzmann as an important context to both Mach s philosophical work and Husserl s early overtures into phenomenology and his later critique of the crisis of European sciences The discursive affinities and differences between phenomenalism and phenomenology are examined in terms of a more contemporary debate over naturalizing phenomenology either as a method continuous with science or reduced to it This immanent tension is examined and evaluated specifically through the second thematic axis of the book which deals with the question of time and irreversibility Time in physics conforms to an explanatory scheme that relegates the issues of directionality and symmetry of time to concepts that are radically different from any phenomenological attempts to explain temporality in terms of intuition and consciousness It is precisely through the notion of irreversibility that both perspectives scientific and phenomenological explicate time s arrow not as a mere manifestation of sensory asymmetry as Mach would have it but rather through indirect descriptions of time and temporal objects The issue of time s arrow irreversibility and Boltzmann s physical hypotheses regarding the nature of time are introduced and

comparatively assessed with Husserl's work on phenomenology and the role of temporality to consciousness Yeats, Shakespeare, and Irish Cultural Nationalism Oliver Hennessey, 2014-08-20 Yeats Shakespeare and Irish Cultural Nationalism examines Yeats's writing on Shakespeare in the context of his work on behalf of the Irish Literary Revival While Shakespeare's verse drama provides a source of inspiration for Yeats's poetry and plays Yeats also writes about Shakespeare in essays and articles promoting the ideals of the Revival and on behalf of Irish literary nationalism These prose pieces reveal Yeats thinking about Shakespeare's art and times throughout his career and taken together they offer a new perspective on the contours of Yeats's cultural politics This book identifies three stages of Yeats's cultural nationalism each of which appropriates England's national poet in an idiosyncratic manner while reflecting contemporary trends in Shakespeare reception Thus Yeats's *fin de siècle* Shakespeare is a symbolist poet and folk artist whose pre-modern sensibility detaches him from contemporary English culture and aligns him with the inhabitants of Ireland's rural margins Next in the opening decade of the twentieth century following his visit to Stratford to see the Benson history cycle Yeats's work for the Irish National Theatre adopts an avant-garde occultist stagecraft to develop an Irish dramatic repertoire capable of unifying its audience in a shared sense of nationhood Yeats writes frequently about Shakespeare during this period locating on the Elizabethan stage the kind of transformational emotional affect he sought to recover in the Abbey Theatre Finally as Ireland moves towards political independence Yeats turns again to Shakespeare to register his disappointment with the social and cultural direction of the nascent Irish state In each case Yeats's thinking about Shakespeare responds to the remarkable conflation of aesthetic and religious philosophies constituting his cultural nationalism thus making a unique case of Shakespearean reception Taken together Yeats's writings deracinate Shakespeare and so contribute significantly to the process by which Shakespeare has come to be seen as a global artist rather than a specifically English possession *The Phenomenology of Self-Awareness and the Nature of Conscious Subjects* Julien Bugnon, Martine Nida-Rümelin, Donnchadh O'Conaill, 2025-10-27 This volume explores the connections between the phenomenology of self-awareness and the metaphysical nature of subjects of experience bringing together two important research areas in contemporary philosophy of mind into fruitful engagement with one another The phenomenology of self-awareness concerns what it is like to be aware of oneself in various conscious experiences such as perceiving recollecting experiencing agency or emotions The metaphysical nature of subjects of experience raises questions concerning whether subjects are physical or non-physical entities whether they are substances or bundles of properties and what it is for subjects to have experiences The ten original essays in this volume are grouped into thematic sections covering the following topics the nature of self-awareness and its relation to conscious experience the metaphysical nature of the subject of experience and whether self-awareness can reveal anything about the metaphysical nature of the subject Each chapter is accompanied by comments from another contributor to the volume and a response from the author *The Phenomenology of Self-Awareness and the Nature of Conscious Subjects* will appeal to researchers and

advanced students working in analytic philosophy of mind *Alan Watts - In the Academy* Alan Watts, 2017-04-25 Explores language and mysticism Buddhism and Zen Christianity comparative religion psychedelics and psychology and psychotherapy To commemorate the 2015 centenary of the birth of Alan Watts 1915 1973 Peter J Columbus and Donadrian L Rice have assembled a much needed collection of Watts s scholarly essays and lectures Compiled from professional journals monographs scholarly books conferences and symposia proceedings the volume sheds valuable light on the developmental arc of Watts s thinking about language and mysticism Buddhism and Zen Christianity comparative religion psychedelics and psychology and psychotherapy This definitive collection challenges Watts s reputation as a popularizer or philosophical entertainer revealing his concerns to be much more expansive and transdisciplinary than is suggested by the parochial Zen Buddhist label commonly affixed to his writings The editors authoritative introduction elucidates contemporary perspectives on Watts s life and work and supports a bold rethinking of his contributions to psychology philosophy and religion This excellent volume is important in establishing Watts as perhaps the most important Western thinker and writer on Eastern religions and philosophy as well as comparative religions of the twentieth century John W Traphagan author of *Rethinking Autonomy A Critique of Principlism in Biomedical Ethics* *Hermeneutics and Phenomenology in Paul Ricoeur* Scott Davidson, Marc-Antoine Vallée, 2016-07-06 *Hermeneutics and Phenomenology in Paul Ricoeur* Between Text and Phenomenon calls attention to the dynamic interaction that takes place between hermeneutics and phenomenology in Ricoeur s thought It could be said that Ricoeur s thought is placed under a twofold demand between the rigor of the text and the requirements of the phenomenon The rigor of the text calls for fidelity to what the text actually says while the requirement of the phenomenon is established by the Husserlian call to return to the things themselves These two demands are interwoven insofar as there is a hermeneutic component of the phenomenological attempt to go beyond the surface of things to their deeper meaning just as there is a phenomenological component of the hermeneutic attempt to establish a critical distance toward the world to which we belong For this reason Ricoeur s thought involves a back and forth movement between the text and the phenomenon Although this double movement was a theme of many of Ricoeur s essays in the middle of his career the essays in this book suggest that hermeneutic phenomenology remains implicit throughout his work The chapters aim to highlight in much greater detail how this back and forth movement between phenomenology and hermeneutics takes place with respect to many important philosophical themes including the experience of the body history language memory personal identity and intersubjectivity *Sixty Years in America* Helene E. The Closing of the Liberal Mind Kim R. Holmes, 2016-04-12 A former U S Assistant Secretary of State and currently a Distinguished Fellow at the Heritage Foundation Kim R Holmes surveys the state of liberalism in America today and finds that it is becoming its opposite illiberalism abandoning the precepts of open mindedness and respect for individual rights liberties and the rule of law upon which the country was founded and becoming instead an intolerant rigidly dogmatic ideology that abhors dissent and stifles free speech Tracing the new illiberalism historically to the radical Enlightenment a movement that rejected the classic liberal ideas of the moderate Enlightenment that were prominent in the American Founding Holmes argues that today's liberalism has forsaken its American roots incorporating instead the authoritarian anti clerical and anti capitalist prejudices of the radical and largely European Left The result is a closing of the American liberal mind Where once freedom of speech and expression were sacrosanct today liberalism employs speech codes trigger warnings boycotts and shaming rituals to stifle freedom of thought expression and action It is no longer appropriate to call it liberalism at all but illiberalism a set of ideas in politics government and popular culture that increasingly reflects authoritarian and even anti democratic values and which is devising new strategies of exclusiveness to eliminate certain ideas and people from the political process Although illiberalism has always been a temptation for American liberals lurking in the radical fringes of the Left it is today the dominant ideology of progressive liberal circles This makes it a new danger not only to the once venerable tradition of liberalism but to the American nation itself which needs a viable liberal tradition that pursues social and economic equality while respecting individual liberties

The Methuen Drama Companion to Performance Art Bertie Ferdman, Jovana Stokic, 2020-02-20 *The Methuen Drama*

Companion to Performance Art offers a comprehensive guide to the major issues and interdisciplinary debates concerning performance in art contexts that have developed over the last decade. It understands performance art as an institutional, cultural, and economic phenomenon rather than as a label or object. Following the ever-increasing institutionalization and mainstreaming of performance, the book's chapters identify a marked change in the economies and labor practices surrounding performance art and explore how this development is reflective of capitalist approaches to art and event production. Embracing what we perceive to be the oxymoronic status of performance art where it is simultaneously precarious and highly profitable, the essays in this book map the myriad gestures and radical possibilities of this extreme contradiction. This Companion adopts an interdisciplinary perspective to present performance art's legacies and its current practices. It brings together specially commissioned essays from leading innovative scholars from a wide range of approaches, including art history, visual and performance studies, dance, and theatre scholarship, in order to provide a comprehensive and multifocal overview of the emerging research trends and methodologies devoted to performance art.
