Modern English Structures - Second Edition Bernard O'Dwyer, 2006-06-14 *Modern English Structures* is a clear and accessible text that follows a structural approach to teaching basic English grammar. The book is divided into three parts: what a sentence constituent is, what a sentence constituent does, and where a sentence constituent goes. Form, Function, and Position. The objective of the book is to bring students to a better understanding of sentence constituents and sentence structures, providing them with appropriate terminology to discuss these forms and relationships. This second edition has been revised and updated throughout. The accompanying *Modern English Structures Workbook* parallels the text and provides useful training both in memorization and in higher order thinking skills. *Grammar By Diagram - Second Edition* Cindy L. Vitto, 2006-07-10 *Grammar by Diagram* second edition is a book designed for anyone who wishes to improve grammatical understanding and skill. Using traditional sentence diagramming as a visual tool, the book explains how to expand simple sentences into compound, complex, and compound complex sentences, and how to employ verbals, infinitives, gerunds, and participles, and other structures for additional variety. The text addresses the most frequent usage errors by explaining how to distinguish between adjectives and adverbs, how to avoid problems of pronoun case agreement and consistency, how to ensure that verbs will agree with their subjects and will be appropriate in terms of tense, aspect, voice, and mood, and how to phrase sentences to avoid errors in parallelism or placement of modifiers. Six appendices incorporate further exercises, a summary of key basics from the text, and supplemental material not included in the body of the text but useful for quick reference. This new edition includes additional exercises and has been revised and updated throughout. ENGLISH WRITING DEVELOPMENT LIXIA WEI, 2018-02-13 *English Writing Development 4MAT Learning Style and Thinking Visualization Strategies* is designed as an introductory course in English writing for students, teachers, and all those who consider writing is important and fun. It is based on the author's own experience of teaching English writing to undergraduates who major in English and training students to participate in provincial and national English writing contests. Instead of showing the skeleton of writing to readers directly, the author integrates the 4MAT Process Approach that she has developed on the basis of the 4MAT learning style and the Process Approach into the design of the book, aiming to increase learners' motivation by answering why they should learn, what they should learn, how they should apply what they have learnt, and what if the situation changes. In each chapter, with corpora, news, and students' work as resources to collect sample sentences, paragraphs, and essays, the author elaborates eight main aspects: writing process, writing a paragraph, writing an essay, methods of paragraph development, types of clause, types of sentence, rhetorical devices, paraphrase, and summary. *English Writing Development 4MAT Learning Style and Thinking Visualization Strategies* is not only the ideal English writing textbook for students at different levels but also functions equally well as a self-tutoring textbook. The simple, reader-friendly explanations, coupled with interesting and meaningful examples, figures, tables, and the checklists, are of great

help for the learners to make progress on their own Armed with the strategies elaborated in the book learners most probably will find that WRITING IS FUN
