Light Years from Tranquility Frank Lewandowski, 2011-04-11 In the distant future an enemy of Mankind is destroying space colonies causing human expansion among the stars to come to a halt Unaware these events have been taking place Starship Captain Erik Houston is en route back to headquarters He can't stop thinking about Zama a female Believer from his last mission A shocking discovery aboard his ship causes him to question her motives Despite his concerns he seeks to get reassigned to her planet Instead his superiors send him and his crew on a high risk mission to a star system where two rival species are about to go to war Some highly improbable events unfold that seem meant to be almost as if an unseen hand were guiding things First Officer Fred Montoya a religious skeptic begins to feel his long held views may be wrong Perhaps there is a God after all The story offers adventure and a romance that transcends time and space *Light Years from Tranquility* is the sequel to Lewandowski's previous novel *Light Years from Paradise* *Living on Centauri* Donald Krueger, 2019-11-26 The story begins some 300 years ago when the planet Centauri sent a tiny spaceship to Earth The saga began from a discovery that the two planets were created identically This book is the final chapter evolving from the first three in the storyline Background would be revealed by reading the first three i.e. *Hush Sisters* *Hush Music for Centauri* and *The Search for Tesla* All of which are available in eBooks and paperbacks This book is a continuation with all the same characters This story is about adapting to living on a new planet since circumstances on Earth gave grave concern for remaining The 40 times lightspeed spacecraft made the two month journey in a luxury comparable to a cruise ship Now they fit in nicely and live in the mansion of the woman who started it all They are now among a populous with life expectancies approaching 1000 years Physical appearances have no identifiers that are discernable except the slow growth of children On Centauri there is but one culture and no religions The global population is 150 million and has but one language So now with interest in Earth waning the Council of Centauri wants to utilize this marvelous spacecraft to search the galaxy for life beyond what has before been limited to sub lightspeed vehicles They decided on a ten year expedition with a crew of seven only to find that the cosmos has little to offer except months of boredom **Special Edition Using the Internet and Web** Michael Miller, 2001 *Special Edition Using the Internet and Web* covers multiple individual end user activities it's like having a dozen activity specific books under a single cover The book is organized by activity how people spend their time online Each chapter describes a specific activity and shows users the best ways to engage in that activity online complete with real world tips and advice for getting the most of that time online Topics range from getting connected and getting connected faster to online shopping and downloading MP3 files In short whatever users want to do online they'll find in this book without having to wade through hundreds of pages of software specific instruction **Report of the Annual Meeting of the South African Association for the Advancement of Science**, 1922 **Dreams of Eden** Jonathan Frost, 2025-01-28 Elizabeth Fallon and Isaac Goldman meet by chance in 1970s London Elizabeth a Tarot reader believes she can speak to the dead Isaac a rootless

dreamer has written a book *Beguiled* by Elizabeth he asks for her help with questions only the dead can answer Azazel a Watcher from an alien race called Nephilim reveals itself during a terrifying seance telling Isaac his book is a prophecy Their lives change forever Twelve years later Elizabeth a SETI astrobiologist discovers a mysterious signal containing an apocalyptic message from an extraterrestrial civilisation Isaac now an archaeologist is excavating a site in Iraq One night he is struck by a vision a premonition of disaster Without warning his excavation is bombed His team flee for their lives across the Zagros mountains While they shelter in a cave Isaac makes a shattering discovery His world implodes and he disappears Thirty years later a documentary film crew are trying to discover what happened to Isaac Their only surviving witness Elizabeth Fallon mysteriously disappears *Dreams of Eden* is a compelling and gripping story set in the near future which challenges the perception of human imagination and questions our reality

Engine City Ken MacLeod,2024-03-26 The Concluding Volume of the Engines of Light With Cosmonaut Keep and Dark Light both finalists for science fiction s Hugo Award Ken MacLeod launched a new interstellar epic with all the engaging characters and ingenious SF inventiveness of his earlier Fall Revolution novels Now MacLeod delivers the culmination of his epic of a human future crammed with innumerable varieties of intelligent alien life and in which humans find themselves involved in the politics of aliens as powerful and inscrutable as gods and entangled in

their wars For ten thousand years Nova Babylonia has been the greatest city of the Second Sphere an interstellar civilization of human and other beings who have been secretly removed throughout history from Earth Now humans from the far reaches of the Sphere have come to offer immortality and to urge them to build defenses against the alien invasion they know is coming As humans and aliens compete and conspire the wheels of history will lathe all the players into shapes new and surprising The alien invasion will reach New Babylon at last led by the most alien figure of all Waxing and Waning a Memoir of an Amateur Astronomer James Hannon,2014-06-23 The true story of my life as an amateur astronomer I tell of all the start and stops in the hobby as I past through different stages of my life always returning to astronomy The love of the night sky has remained with me ever since I discovered the stars at the age of five **Genesis 3** Barry E Woodham,2012-08-25 In the fifth and final book of the epic science fiction saga The Genesis Project the peace seeking alien alliance seems to have found the perfect world to colonise in a distant corner of the universe Except someone or something has been there before them And it may not have left Centuries of war politics and near total annihilation have forged the Council of Worlds whose only desire is to settle peaceful planets throughout the universe It began when humanity escaped the death of their planet which set them on a dangerous adventure of inter species contact Believing that the years of devastating war are behind them the alliance s search for a home planet seems successful when they discover a forgotten world complete with an abandoned city It is only when they are attacked by strangely intelligent machines that they realise that their landing here was not an unfortunate coincidence In Genesis 3 A New Beginning the various species of the alliance are plunged into a brutal battle for survival against an enemy that will never surrender As the odds mount against them it seems that the humans that left earth many years ago have finally met an adversary they cannot overcome No Direction Home James Baddock,2019-06-05 It is the twenty second century Chris Vinter awakes aboard a UN starship on its way to Delta Pavonis carrying two thousand colonists to a new planet fleeing from an Earth on the brink of nuclear war They are barely a quarter of the way into their journey and now as the senior UN Security Officer he has been awoken from cryogenic sleep to deal with an emergency that threatens everybody on board All is not as it seems to be however within days there is a coup and Vinter finds himself forced to work for one of the power blocs the starship was trying to escape from as the only way of protecting the colonists in the cryosleep chambers He also discovers that someone has been tampering with his memories of Earth and far more than that He has been Augmented gene engineered as a semi cyborg warrior programmed to kill on demand the first of his kind He cannot trust his memory nor can he control his reflexes or even his allegiances but he is faced with the task of preventing Mankind s last war in the depths of interstellar space How is he to achieve this when the only people who can help him know that he could turn against them at any moment Fizz (paperback) - Nothing is as it seems Zvi Schreiber,2011-05 **A Rookie's Share** Cherime MacFarlane,2022-03-02 Bethia Bet to her friends met Arthan a Vicillian while in basic They became partners and fought their way to the top two places in their class Crewing on the Long
