Christian-Confucian Dialogism in Late Ming Fujian Song Gang, 2018-10-03 Christian dialogic writings flourished in the Catholic missions in late Ming China. This study focuses on the mission work of the Italian Jesuit Giulio Aleni (1582-1649) in Fujian and the unique text *Kouduo richao* (Diary of Oral Admonitions, 1630-1640) that records the religious and intellectual conversations among the Jesuits and local converts. By examining the mechanisms of dialogue in *Kouduo richao* and other Christian works distinguished by a certain dialogue form, the author of the present work aims to reveal the formation of a hybrid Christian-Confucian identity in late Ming Chinese religious experience. By offering the new approach of dialogic hybridization, the book not only treats dialogue as an important yet underestimated genre in late Ming Christian literature but it also uncovers a self/other identity complex in the dialogic exchanges of the Jesuits and Chinese scholars. Giulio Aleni, *Kouduo richao*, and Christian-Confucian Dialogism in Late Ming Fujian is a multi-faceted investigation of the religious, philosophical, ethical, scientific, and artistic topics discussed among the Jesuits and late Ming scholars. This comprehensive research echoes what the distinguished Sinologist Erik Zürcher (1928-2008) said about the richness and diversity of Chinese Christian texts produced in the 17th and 18th centuries. Following Zürcher's careful study and annotated full translation of *Kouduo richao* (Monumenta Serica Monograph Series LVI, 1-2), the present work features a set of new findings beyond the endeavours of Zürcher and other scholars. With the key concept of Christian-Confucian dialogism, it tells the intriguing story of Aleni's mission work and the thriving Christian communities in late Ming Fujian.

Strengths-Based Teaching and Learning in Mathematics Beth McCord Kobett, Karen S. Karp, 2020-02-27 This book is a game changer. *Strengths-Based Teaching and Learning in Mathematics: 5 Teaching Turnarounds for Grades K-6* goes beyond simply providing information by sharing a pathway for changing practice. Focusing on our students' strengths should be routine and can be lost in the day-to-day teaching demands. A teacher using these approaches can change the trajectory of students' lives forever. All teachers need this resource. Connie S. Schrock, Emporia State University, National Council of Supervisors of Mathematics President, 2017-2019.

NEW COVID RESOURCES ADDED: A Parent's Toolkit to Strengths-Based Learning in Math is now available on the book's companion website to support families engaged in math learning at home. This toolkit provides a variety of home-based activities and games for families to engage in together. Your game plan for unlocking mathematics by focusing on students' strengths. We often evaluate student thinking and their work from a deficit point of view, particularly in mathematics, where many teachers have been taught that their role is to diagnose and eradicate students' misconceptions. But what if, instead of focusing on what students don't know or haven't mastered, we identify their mathematical strengths and build next instructional steps on students' points of power? Beth McCord Kobett and Karen S. Karp answer this question and others by highlighting five key teaching turnarounds for improving students' mathematics learning: identify teaching strengths, discover and leverage students' strengths, design instruction from a strengths-based perspective, help students identify their points of power, and promote strengths in the school community and at home. Each chapter provides opportunities to stop and
