strategic foresight and illuminating how different schools of thought regard its role in policy making Tuomo Kuosa describes
how something not traditionally considered an independent discipline is steadily becoming one In The Evolution of Strategic
Foresight he explains how the practice of strategic foresight has long been closely associated with the military and politics
Linking strategic thinking more broadly to futurology however it is quite new Since strategic foresight refers to the practice
of generating analyses of alternative futures and strategies based on available intelligence and foreknowledge the practice
can and should be applied to companies business sectors national and trans national agencies of all descriptions and to all
aspects of public policy making The author explains its practice in terms of structure process and knowledge domains and
examines its methodologies and systems along with how strategic foresight can be used to produce better knowledge and be
more effectively linked to policy making Using examples from 30 different countries and with access to interviews and
workshops involving key experts The Evolution of Strategic Foresight will be valuable to scholars educators students
