Additions to a Revision of the Shark Genus *Carcharhinus* J. A. F. Garrick, 1985 Features of the valid nominal species of *Aprionodon* Gill *isodon Valenciennes* and *Hypoprion* M ller and Henle *hemiodon Valenciennes macloiti* M ller and Henle and *signatus* Poey plus those of a previously unrecognized species here described as *Carcharhinus leiodon* n sp are examined and compared with those of *Carcharhinus* Blainville Features studied include morphometrics vertebral numbers and other vertebral characteristics tooth numbers color pattern and some other aspects of external morphology It is concluded that on these features *C Leiodon* n sp is entirely encompassed within the parameters of *Carcharhinus* and that although *A isodon* *H hemiodon* *H macloiti* and *H signatus* each extend the range of diversity of *Carcharhinus* in one or more features *A isodon* is not uniquely different from *Carcharhinus* and there is no common pattern of difference between the three species of *Hypoprion* and *Carcharhinus* Accordingly and because the nature of the teeth of *Aprionodon* and *Hypoprion* has been found insufficient to warrant generic distinction from *Carcharhinus* the genera *Aprionodon* and *Hypoprion* are synonymised with *Carcharhinus* A diagnosis and description are given for each of the above species The descriptions include measurements counts and line illustrations that show the whole shark in lateral view underside of head nostril and teeth The geographic distribution is summarized as are also the meager biological data available on number of embryos size at birth size at sexual maturity and maximum size **Monographic Series** Library of Congress, 1982 The Ecology of Fynbos Richard M. Cowling, 1992 South Africa s Cape Floristic Region includes approximately 8 500 plant species Most of this biodiversity is concentrated in fynbos a fire prone shrubland occurring on the sandy infertile soils which predominate in this region This book reviews a decade of rigorous research into the biogeography ecology and management of fynbos carried out under the auspices of the Fynbos Biome Project Annals of the Cape Provincial Museums ,1981 *Proceedings RMRS.* ,1998
