A Strategy for Racial Equality** Roy L. BROOKS,Roy L Brooks,2009-06-30 Integrated in principle segregated in fact is this the legacy of fifty years of progress in American racial policy Is there hope for much better Roy L Brooks a distinguished professor of law and a writer on matters of race and civil rights says with frank clarity what few will admit integration hasn t worked and possibly never will Equally he casts doubt on the solution that many African Americans and mainstream whites have advocated total separation of the races This book presents Brooks s strategy for a middle way between the increasingly unworkable extremes of integration and separation Limited separation the approach Brooks proposes shifts the focus of civil rights policy from the group to the individual Defined as cultural and economic integration within African American society this policy would promote separate schooling housing and business enterprises where needed to bolster the self sufficiency of the community without trammeling the racial interests of individuals inside or outside of the group and without endangering the idea of a shared Americanness But all the while Brooks envisions African American public schools businesses and communities redesigned to serve the enlightened self interest of the individual Unwilling to give up entirely on racial integration he argues that limited separation may indeed lead to improved race relations and ultimately to healthy integration This book appears at a crucial time as Republicans dismantle past civil rights policies and Democrats search for new ones With its alternative strategy and useful policy ideas for bringing individual African Americans into mainstream society as first class citizens Integration or Separation should influence debate and policymaking across the spectra of race class and political persuasion *Racial Conflict and Healing* Andrew Sung Park,2009-12-01 A Korean theologian approaches the issue of racial conflict including discrimination between minority communities and constructs a theology of seeing that aims to heal the ruptures of racism As ethnic tensions continue to simmer and occasionally erupt immigration and affirmative action laws are hotly debated in every ethnic minority African Americans Hispanic Americans Native Americans even Asian Americans the so called model minority struggle in the racially charged atmosphere of contemporary America In the aftermath of the Los Angeles riots of 1992 and the ensuing violence against Korean Americans Andrew Sung Park seeks a theological model that will help transform a society of oppression injustice and violence into a community of equity fairness and mutual consideration Park emphasizes that such a transformation does not and cannot begin only with good intentions but must be grounded in an understanding of

all the socio economic and cultural issues that lead to oppression and tension Using the Korean term han to describe the deep seated suffering of racial oppression he then suggests resources for understanding and healing in both Christian and Asian traditions Part I of Racial Conflict and Healing describes the status quo from a Korean American perspective including discrimination against ethnic minorities and the discrimination they inflict on one another In Parts II and III Park suggests that American society as a whole needs a superordinate vision to form a unified community Park argues that our profoundly individualistic society must learn to understand an idea of self that is formed through relationship with others Finally in Part IV he presents a theological model a theology of seeing as a way to genuinely understand the other and to promote healing within our society Society Ian Robertson,1989 This concise elegantly written paperback volume on the essential elements of sociology is perfect as the sole textbook for a brief introductory course or as a core text to be supplemented with other readings
