its philosophical tenets or fashionably view themselves as Buddhists They're part of what's been described as the fastest growing religious movement in America a large group of people dissatisfied with traditional religious offerings and thirsty for an approach to spirituality grounded in logic and consistent with scientific knowledge The Star Spangled Buddhist is a provocative look at these American Buddhists through their three largest movements in the United States the Soka Gakkai International Tibetan Vajrayana Buddhism and Zen Buddhism The practice of each of these American schools unlike most traditional Asian Buddhist sects is grounded in the notion that all people are capable of attaining enlightenment in this lifetime But the differences are also profound the spectrum of philosophical expression among these American Buddhist schools is as varied as that observed between Reformed Orthodox and Hasidic Judaism The Star Spangled Buddhist isn't written from the perspective of a monk or academic but rather from the view of author Jeff Ourvan a lifelong practicing lay Buddhist As Ourvan explores the American Buddhist movement through its most popular schools he arrives at a clearer understanding for himself and the reader about what it means to be and how one might choose to be a Buddhist in America

Synopsis of Vocal Musick by A.B. Philo-Mus. Rebecca Herissone, 2017-07-05 Synopsis of Vocal Musick by the unidentified A B was published in London in 1680 and appears to have only ever had one edition Its relatively short shelf life belies its importance to the history of early British music theory Unlike other English theoretical writings of the period the Synopsis derives many of its aspects from the continental theoretical tradition including the first references in English theory to the modern fractional time signatures that had been invented in Italy in the mid seventeenth century the first references in English to compound time and the first explanations of tempo terms such as Adagio and Presto In these respects the treatise forms an important link between English and continental theoretical traditions and may have encouraged the adoption of Italian principles which became a common feature of English writings by the early eighteenth century The treatise is essentially in two parts The first section of the book comprises rudimentary instruction on understanding notation and intervals descriptions of common vocal ornaments and instruction in the process of learning to sing The second part consists of a selection of psalms songs and catches which are provided as exercises for the singer though several of them require a reasonably advanced degree of skill These pieces provide valuable insight into the way both sacred and secular music might have been performed by amateur musicians in the Restoration period They include 14 rare English madrigal settings by the Italian composer Gastoldi further evidence of the Italian influence which pervades the text This is the first modern edition of the Synopsis and indeed the first edition to appear since its original publication **Catalog of Copyright Entries, Third Series**, 1967 The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc *Star Man* Michael Francis, Paul Elliott, 2005 Life changed for Michael Francis at the age of 21 when Paul McCartney walked into his father's boxing gym to watch his friend John Conteh
