Rolex Watches - Rolex Submariner Daytona Gmt Master Explorer and Many More Leonard Lowe,2016-05-30 5 5 Stars Very good book Very good and concise book if you want to learn more about Rolex in a short time Zeer goed boek Zeer goed en beknopt boek als je in korte tijd meer wilt weten over rolex Dieter B Oktober 17 2017 5 5 Stars Well worth reading and at a fair price This is a very useful and clearly written primer for anyone who is interested in Rolex watches All of the modern and many of the vintage watches are covered The compact format is a handy feature Harrell March 4 2017 5 5 Stars MUY BUENO Juan Carlos Camino March 15 2017 This ebook provides you with a lot of purchase relevant background information on the most important Rolex models With this ebook you will be able to select the watch you want to purchase with ease You will have a quick overview of the Rolex models and understand why they are there and why some models are considered more important and valuable than others The Rolex lineup of watches evolved over time And like every naturally evolving structure it is a bit confusing at the first and often also second look It helps a lot to understand when and why which model was introduced and what changes it got over time You also will be able to understand the Rolex vintage movement that values old Rolex models much higher than the modern lineup This ebook tries to sort this out a bit To understand what watch is meant for what audience what differences are there between the models and how the whole thing did evolve since the 1950s this book will give you some important advice It is no question if you will find the best watch for you within the Rolex world if you just know the details we present to you in this ebook And selecting the right Rolex is always a matter of money So be wise and learn before you buy **The Watch Repairer's Manual** Henry Fried,2013-03-14 The Complete Rolex Counterfeit Watch Guide Robert Ross,2015-11-14 With today s technology the way it is it has become virtually impossible to tell a well crafted counterfeit from the authentic without taking it to a skilled and qualified jeweler This is especially true with stainless steel models Advancements in counterfeit manufacture have progressed to such a level that it is usually necessary to literally open the back of the watch case and inspect the interior components themselves to ascertain authenticity Some of today s Swiss Made counterfeits can now run into the hundreds of dollars In rare cases even into the thousands where counterfeit watch makers will even work in real 14K 18K gold Primarily Chinese based companies continue to produce counterfeit watches at staggering numbers and with current technology and the internet Chinese based companies can now openly market counterfeit products to markets in the United States Great Britain and Europe But the real

danger lies with the unsuspecting buyer who believes he is buying a real genuine Rolex watch from a private seller who may have advertised a fake as a Genuine Rolex watch he has and must sell for a substantially discounted price on the internet What amazes me most is not the fact that the guy must sell his 6k watch for 1500 If it s a genuine Rolex worth 6K any reputable jeweler will gladly shell out 1500 to buy it from him at such a substantially low price But that so many people out there will fall for this It is one thing to knowingly buy a fake Rolex but it s another thing altogether to think you are buying a real Rolex and instead end up buying a well made modern counterfeit Rolex The purpose of this book is to show legitimate buyers every model that we know of that is out there being counterfeited in detail Who would suspect that the vintage model is really a vintage fake that was recently manufactured and manufactured to look exactly in every detail like the real model Here legit buyers can see in detail the actual counterfeit version of a watch they may be looking at so they can see little inconsistencies that exist between the counterfeits and the genuine article
