

Expository Writing

Expository writing is informational writing. It often times explains how or tells why about a topic.

Characteristics of Expository Writing

Introduction	Expository writing needs an introduction. The introduction introduces the reader to the topic and states the main idea, thesis statement, or topic sentence.
Facts and Details	The body of expository writing includes facts and details. Each paragraph should have a topic sentence or main idea and then 3-4 supporting sentences that give details and examples about the main idea.
Conclusion	Expository writing needs a conclusion. This is the final paragraph and it gives the author one more opportunity to state the main idea.
Organization	Strong authors will use one of the non-fiction text structures to help organize their writing (problem and solution, compare and contrast, description, sequence, cause and effect).

The author's purpose of expository writing is to inform.
