## Sports Awards Speech

Good Evening, as my good friend and classmate, John O'Brien, mentioned, my name is Vincent LaFuma and I graduated Cathedral in 2001. When John asked me to give this speech, I admit, I was a bit hesitant. Hesitant because I am not a fan of public speaking, I never have been. I thought about it for a few days. I remembered sitting in the very seats that you are all sitting in tonight. I remembered working hard throughout the year and looking forward to the sports awards dinner. I came to the conclusion that I owed it back to Cathedral to give the speech. For all that Cathedral for me while I was here and since I graduated.

I want to speak to you tonight about being an underdog and being looked at differently by others. Two stereotypes that are almost always associated with being a Cathedral Man. I am going to speak about my family and myself as an example of that and how being a Cathedral man helps you overcome anytime you feel like that underdog, or when you feel like everyone else looks at you differently.

I grew up in Maspeth, Queens. That was where my parents bought their first home and still live in to this day. My parents migrated to New York from Sicily in the early 1970's. Not knowing English, my mother and her sisters attended Long Island City High School while my grandfather worked in the fire proofing union and my grandmother in a garment factory. Not being able to speak the language put them at an immediate disadvantage-Underdogs. They were ridiculed, teased, even abused physically at times, but they never quit. They forged on learning

**Self-talk in Sport** Alexander T. Latinjak, Antonis Hatzigeorgiadis, 2020-03-10 Athletes are naturally exposed to significant psychological challenges in sports but do not wait helplessly for the assistance of sports psychologists or trainers Instead they practise one form or another of self regulation Self talk in Sport explores one such self regulatory strategy self talk the inner voice that accompanies every human being throughout their lives Over time research has revealed many secrets of self talk in sport though many others remain unveiled This book offers you the opportunity to discover the multiple identities of our self talk how the inner coach serves as a rational counterpart to the irrational self and what we need to do to develop our inner voice to reach its maximum self regulatory potential There is a general need for concrete interventions in sport exercise and performance psychology In addition the autonomous functioning of people is a central aim of psychological interventions that align with positive psychology and focus on people's strengths rather than weaknesses In this volume researchers and applied practitioners are shown how they can use self talk interventions to strengthen people's rational self regulation in order to deal with a variety of situations that apply to both sport and other exercise and performance contexts Since self talk is a tangible result of cognitive processes and inner experiences that researchers and applied practitioners can barely access Self talk in Sport is a tool for sports psychologists to understand and interact with hidden parts within athletes that have a major impact on sport and exercise experiences and performance A book demonstrating the diverse both rational and irrational identities of self talk as well as specific interventions to change the inner dialogue of athletes is a fundamental piece in the education of sport scientists

*I Am Error* Nathan Altice, 2017-09-08. The complex material histories of the Nintendo Entertainment System platform from code to silicon, focusing on its technical constraints and its expressive affordances. In the 1987 Nintendo Entertainment System videogame *Zelda II: The Adventure of Link*, a character famously declared "I AM ERROR." Puzzled players assumed that this cryptic message was a programming flaw, but it was actually a clumsy Japanese-English translation of "My Name is Error," a benign programmer's joke. In *I AM ERROR*, Nathan Altice explores the complex material histories of the Nintendo Entertainment System and its Japanese predecessor, the Family Computer, offering a detailed analysis of its programming and engineering, its expressive affordances, and its cultural significance. Nintendo games were rife with mistranslated texts, but as Altice explains, Nintendo's translation challenges were not just linguistic but also material, with consequences beyond simple misinterpretation. Emphasizing the technical and material evolution of Nintendo's first cartridge-based platform, Altice describes the development of the Family Computer or Famicom and its computational architecture, the translation problems faced while adapting the Famicom for the U.S. videogame market, as the redesigned Entertainment System, Nintendo's breakthrough console title *Super Mario Bros.* and its remarkable software innovations, the introduction of Nintendo's short-lived proprietary disk format and the design repercussions on *The Legend of Zelda*, Nintendo's efforts to extend their console's lifespan through cartridge augmentations, the Famicom's Audio Processing Unit (APU) and its importance for the chiptunes genre, and the emergence of software emulators and the new kinds of play they enabled.

**Getting to the Core of English Language Arts, Grades 6-12** Vicky Giouroukakis, Maureen Connolly, 2012-04-19. Design effective CCSS-aligned lessons for secondary students. If you want to revamp your secondary English Language Arts curriculum to reflect the Common Core State Standards, this book is the perfect resource. The authors move the implementation of the CCSS for ELA from the abstract to the concrete by providing adaptable exemplar lesson plans in each of the CCSS strands: reading, writing, speaking, and listening, and language. Each lesson template includes intended grade level, band, timeline, and the type of student writing involved. Connections to supporting theory, including the Backward Design model. Variations to differentiate the lesson for diverse student populations. Ways to link the lesson to technology and service learning. Reproducible handouts. The lesson narratives also give tips for incorporating technology into lessons and connecting them to enduring theorists in education: Dewey, Bloom, and Gardner. The final section offers collaboration strategies for

connecting via technology to colleagues beyond the school building and working together on CCSS based ELA lessons This practical easy to use guide will help you navigate the most efficient route to creating standards based lessons that optimize student learning     **Routledge Handbook of Sports Marketing** Simon Chadwick,Nicolas Chanavat,Michel

Bronner,2019-08-01 Winner of the 2020 Chicago Folklore Prize CHOICE Outstanding Academic Title for 2020 Despite predictions that commercial mass culture would displace customs of the past traditions firmly abound often characterized as folklore In *The Practice of Folklore* Essays toward a Theory of Tradition author Simon J Bronner works with theories of cultural practice to explain the social and psychological need for tradition in everyday life Bronner proposes a distinctive praxic perspective that will answer the pressing philosophical as well as psychological question of why people enjoy repeating themselves The significance of the keyword practice he asserts is the embodiment of a tension between repetition and variation in human behavior Thinking with practice particularly in a digital world forces redefinitions of folklore and a reorientation toward interpreting everyday life More than performance or enactment in social theory practice connects localized culture with the vernacular idea that this is the way we do things around here Practice refers to the way those things are analyzed as part of rather than apart from theory thus inviting the study of studying The way we do things invokes the social basis of doing in practice as cultural and instrumental Building on previous studies of tradition in relation to creativity Bronner presents an overview of practice theory and the ways it might be used in folklore and folklife studies Demonstrating the application of this theory in folkloristic studies Bronner offers four provocative case studies of psychocultural meanings that arise from traditional frames of action and address issues of our times referring to the boogieman connecting wild child beliefs to school shootings deciphering the offensive chants of sports fans and explicating male bravado in bawdy singing Turning his analysis to the analysts of tradition Bronner uses practice theory to evaluate the agenda of folklorists in shaping perceptions of tradition centered folk societies such as the Amish He further unpacks the culturally based rationale of public folklore

programming He interprets the evolving idea of folk museums in a digital world and assesses how the folklorists terms and actions affect how people think about tradition
