Claudia Mitchell, Katarina Giritli-Nygren, Relebohile Molestane, 2023-12-18 Positionality and researcher reflexivity how to account for one's subject position remain as challenges for new researchers But they also remain as challenges for experienced researchers who are often involved in multiple research projects simultaneously Where Am I in the Picture sheds light on the idea of researcher positionality through visual methodologies particularly in the context of studying rurality in Canada Sweden and South Africa The book is intended for new and experienced researchers seeking to decolonize their own perspectives in research in the social sciences and humanities It incorporates photographs drawings and memory work to highlight the social constructedness of what counts as rural Drawing together compelling narratives from researchers about their positionality in studying rurality the book highlights a need for greater attention to where we are in the picture more broadly It suggests that when it comes to the rural researchers need to rethink the interplay of dominant images insider and outsider perspectives and what this interplay means in relation to interpretation Where Am I in the Picture presents a new vision of how to take into consideration positionality in research Strengthening Postgraduate Supervision Sioux McKenna, Jenny Clarence-Fincham, Chrissie Boughey, Harry Wels, Henk van der Heavel, 2017-03-22 An excellent collection of diverse and deeply reflective perspectives All offer insights into the multiple challenges confronted in improving the quality and depth of postgraduate supervision increasing throughput and dealing with complexity What is also affirmed is the importance of individual capability in supervision that is developed and nurtured over time and through arduous effort The book will be of value to novice supervisors and to more experienced ones Policy makers planners and administrators looking to enlarge their understanding of the postgraduate terrain in all its complexities will find the mix of theoretical and practical lenses through which the topic is approached particularly illuminating Professor Narend Bajnath Chief Executive Officer Council on Higher Education

Jansen van Rensburg, 2021-12-31 The main thrust of this book is to examine whether Africa is in a position to benefit from the digital age given the continent's many development challenges and slow adoption of digital technologies While there is substantial literature on the digital economy and the quickening pace of the Fourth Industrial Revolution 4IR comparatively little research has been conducted on what the digital age means for Africa This book aims to close this research gap by using various qualitative and quantitative research methodologies to arrive at a cross section of original findings and perspectives on how Africa can capitalise on the benefits of digital developments including their potential to create jobs and bring about more inclusive growth The book's main contribution is its coverage of a range of topics that will affect Africa's digital future including industrialisation global value chains transport and logistics trade facilitation labour market dynamics employment and education The theme of digital trade forms a backdrop to many of the chapters along with references to the COVID 19 pandemic The book acknowledges that although African countries should learn from international best practices they need to chart their own course according to their own particular circumstances By adopting a digital mindset countries should be able to diversify economically and extend their market reach across the continent Furthermore while Africa should be looking to the future and determining how digital technologies can become effective tools of sustainable development the continent has much catching up to do The New Student Guide, University of Virginia University of Virginia.
