Bennett, 2020-09-23 Over the last fifty years Canada's public schools have been absorbed into a modern education system that functions much like Max Weber's infamous iron cage Crying out for democratic school level reform the system is now a centralized bureaucratic fortress that every year becomes softer on standards for students less accessible to parents further out of touch with communities and surprisingly unresponsive to classroom teachers Exploring the nature of the Canadian education order in all its dimensions The State of the System explains how public schools came to be so bureaucratic confronts the critical issues facing kindergarten to grade 12 public schools in all ten provinces and addresses the need for systemic reform Going beyond a diagnosis of the stresses strains and ills present in the system Paul Bennett proposes a bold plan to re-engineer schools on a more human scale as the first step in truly reforming public education In place of school consolidation and managerialism one size fits all uniformity limited school choice and the success for all curriculum Bennett advocates for a new set of priorities decentralize school governance deprogram education ministries and school districts listen to parents and teachers and revitalize local education democracy Tackling the thorny

Turned Upside Down Yang Jisheng,2021-01-19 Yang Jisheng s The World Turned Upside Down is the definitive history of the Cultural Revolution in withering and heartbreaking detail As a major political event and a crucial turning point in the history of the People s Republic of China the Great Proletarian Cultural Revolution 1966 1976 marked the zenith as well as the nadir of Mao Zedong s ultra leftist politics Reacting in part to the Soviet Union s revisionism that he regarded as a threat to the future of socialism Mao mobilized the masses in a battle against what he called bourgeois forces within the Chinese Communist Party CCP This ten year long class struggle on a massive scale devastated traditional Chinese culture as well as the nation s economy Following his groundbreaking and award winning history of the Great Famine Tombstone Yang Jisheng here presents the only history of the Cultural Revolution by an independent scholar based in mainland China and makes a crucial contribution to understanding those years lasting influence today The World Turned Upside Down puts every political incident major and minor of those ten years under extraordinary and withering scrutiny and arrives in English at a moment when contemporary Chinese governance is leaning once more toward a highly centralized power structure and Mao style cult of personality **Ireland**

International Monetary Fund,2011-05-20 Ireland has made progress in overcoming the economic crisis The new coalition government s strategy for restoring sustained growth sound public finances and job creation has been put forward in the context of the European Union IMF supported program On this basis the government adopted a comprehensive strategy to reorganize and deleverage domestic banks and to strengthen their capital base Steadfast implementation of policies coupled with support from a comprehensive European plan will foster Ireland s economy From GCSEs to EBCs Great Britain. Parliament. House of Commons. Education Committee,2013 The Government s plans for replacing GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several fundamental changes at the same time and to a tight timetable will jeopardise the quality of the reforms and may threaten the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the exam system but the Government still needs to make the case that the GCSE brand is so discredited that it is beyond repair MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will be taking GCSEs for some time to come according to the Government s plans The report also questions how well the Government s proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and

poorest students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of Achievement specifically for lower attaining pupils MPs agree that changes are needed to the way in which exams are run but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government s decision to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the school accountability system MPs also note the wide ranging stakeholder opposition to many of the Government s proposals
