Sinclair, 2014-04-08 In *The New Masters of Capital* Timothy J Sinclair examines a key aspect of the global economy the rating agencies In the global economy trust is formalized in the daily operations of such firms as Moody's and Standard Poor's which continuously monitor the financial health of bond issuers ranging from private corporations to local and national governments Their judgments affect unimaginably large sums approximately 30 trillion in outstanding debt issues according to a recent Moody's estimate The difference between an AA and a BB rating may cost millions of dollars in interest payments or determine if a corporation or government can even issue bonds Without bond rating agencies there would be no standard means to compare risks in the global economy and international investment would be problematic Most observers assume that the agencies are neutral and scientific and that they interpret their role in narrowly economic terms But these agencies by their nature wield extraordinary power and exert massive influence over public policy Sinclair offers a highly accessible account of these institutions their origins and the rating processes they use to judge creditworthiness Illustrated with a wide range of cases this book offers a fresh assessment of the role of an often overlooked institution in the dynamics of modern global capitalism Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *Business Information Systems Workshops* Witold Abramowicz, 2015-12-01 This book constitutes the refereed proceedings of the five workshops that were organized in conjunction with the International Conference on Business Information Systems BIS 2015 which took place in Poznan Poland in June 2015 The 26 papers in this volume were carefully reviewed and selected from 56 submissions and were revised and extended after the event The workshop topics covered knowledge based business information systems AKTB business and IT alignment BITA transparency enhancing technologies and privacy dashboards PTDCS semantics usage in enterprises FSFE and issues related to DBpedia In addition two keynote papers are included in this book *The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces*, 1893 **Parliamentary Debates**
