OB SYSTEMS

All organizations achieve goals by creating, communicating and operating a system. (Newstrom 27) Some systems are consciously created and regularly looked at and updated. The purpose of these systems is to help managers shift everything in the organization – people, technology, structure and environment - to get results, or outcomes for the organization.

THREE CRITERIA

Progressive Organizations **measure** their **results** or **outcomes** by three criteria

PERFORMANCE

Product and services quality and quantity, level of customer service

EMPLOYEE SATISFACTION

May be measured by - lower absenteeism, tardiness or turnover

PERSONAL GROWTH AND DEVELOPMENT

Employees gain lifelong knowledge and skills leading to continued employability and career advancement.

FIGURE 1 THREE CRITERIA TO MEASURE OUTCOMES OF OB SYSTEMS

A system comes out of the beliefs and intentions of those who create it - owners - and from the managers who run it. The model that an organization

Desch,2008-03-06 Since 1815 democratic states have emerged victorious from most wars leading many scholars to conclude that democracies are better equipped to triumph in armed conflict with autocratic and other non representative governments Political scientist Michael C Desch argues that the evidence and logic of that supposition which he terms democratic triumphalism are as flawed as the arguments for the long held and opposite belief that democracies are inherently disadvantaged in international relations Through comprehensive statistical analysis a thorough review of two millennia of international relations thought and in depth case studies of modern era military conflicts Desch finds that the problems that persist in prosecuting wars from building up and maintaining public support to holding the military and foreign policy elites in check remain constant regardless of any given state s form of government In assessing the record he finds that military effectiveness is almost wholly reliant on the material assets that a state possesses and is able to mobilize Power and Military Effectiveness is an instructive reassessment of the increasingly popular belief that military success is one of democracy s many virtues International relations scholars policy makers and military minds will be well served by its lessons Alexander B Downes **AI in Business: Opportunities and Limitations** Reem Khamis,Amina Buallay,2024-05-01 This book is a comprehensive guide to understanding the potential of artificial intelligence AI in improving business functions as well as the limitations and challenges that come with its implementation In this book readers will learn about the various opportunities that AI presents in business including how it can automate routine tasks reduce errors and increase efficiency The book covers a range of topics including how AI can be used in financial reporting auditing fraud detection and tax preparation However the book also explores the limitations of AI in business such as the need for skilled professionals data quality and the potential for bias It examines the challenges that companies face when implementing AI in business functions including the need for ethical considerations transparency and accountability The book is written for business professionals business leaders and anyone interested in the potential of AI in business functions It offers practical advice on how to implement AI effectively and provides insights into the latest developments in AI technology Through case studies and real world examples readers will gain a deeper understanding of how AI can be used to enhance business functions as well as the potential pitfalls and limitations to be aware of Overall this book is an essential guide for anyone looking to harness the power of AI to improve their business functions and to stay ahead in an increasingly competitive business environment

Gender, Pleasure, and Violence Agnieszka Kościńska,2021-01-01 Behind the Iron Curtain the politics of sexuality and gender were in many ways more progressive than the West While Polish citizens undoubtedly suffered under the oppressive

totalitarianism of socialism abortion was legal clear laws protected victims of rape and it was relatively easy to legally change one's gender In *Gender Pleasure and Violence* Agnieszka Kościńska reveals that sexologists experts such as physicians therapists and educators not only treated patients but also held sex education classes at school published regular columns in the press and authored highly popular sex manuals that sold millions of copies Yet strict gender roles within the home meant that true equality was never fully within reach Drawing on interviews participant observation and archival work Kościńska shares how professions like sexologists defined the notions of sexual pleasure and sexual violence under these sweeping cultural changes By tracing the study of sexual human behavior as it was developed and professionalized in Poland since the 1960s *Gender Pleasure and Violence* explores how the collapse of socialism brought both restrictions in gender rights and new opportunities
