Summary of Cash Flow Quadrant Alexander Cooper, 2021-07-20 Summary of Cash Flow Quadrant You can never have true freedom without financial freedom Freedom may be free but it has a price Preface What is Your Life's Goal Finding your path in life is your goal in life Your path is not your profession how much money you make your title or your successes and failures Finding your path means finding out what you were put here on this earth to do What is your life's purpose Why were you given this gift called life And what is the gift you give back to life Most people are programmed early in life to Go to school and get a job School is about finding a job in the E or S quadrant It is not about finding your life's path Trust your intuition heart and have guts Education is a process To develop into a whole human being we need mental physical emotional and spiritual education Traditional schools were primarily about developing students mentally That is why so many students who do well in school do not do well in real life especially in the world of money School programs students to be an employee in the E or S quadrant Traditional education is not the place for a person who wants to be an entrepreneur in the B and I quadrants Become an entrepreneur in education It seems that our paths in life are not found in our minds Our path in life is to find out what is in our hearts The shortcoming of traditional education Millions of people leave school only to be trapped in jobs they do not like They know something is missing in life Many people are also trapped financially earning just enough to survive wanting to earn more but not knowing what to do Without awareness of the other quadrants many people go back to school and look for new professions or pay raises in the E or S quadrant unaware of the world of the B and I quadrants Most addictions are attempts to find happiness in people's souls Many A students get stuck in analysis paralysis studying every little detail but failing to do anything This analysis paralysis is caused by our educational system punishing students for making mistakes If you think about it A students are A students simply because they made the fewest mistakes The problem with that emotional psychosis is that in the real world people who take action are the ones who make the most mistakes and learn from them to win in the game of life The reason so many people fail to achieve success is because they fail to fail enough times One of the reasons so many people cling to job security is because they lack emotional education They let fear stop them Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book **Rich Dad's Cashflow Quadrant** Robert T.
