**A Plain Widow** Diane Craver, Molly Ebersol's life changes in a few minutes when an arsonist torches their barn. Her husband Caleb rushes inside the burning barn to save his horses. Although Amish firefighter Jonathan Mast tries to save Caleb, he fails. Suddenly, Molly becomes a widow. A month later, an anonymous person gives money to cover the lumber and food expenses for the barn raising. One late night, more money is left for Molly on the porch. The fire investigator wonders if the arsonist feels guilt about Caleb's death and is responsible for the money gifts. During the continued investigation, it is learned that Caleb had secrets he kept from Molly. She is crushed by what Caleb did before meeting her. How could the love of her life keep his English past from her? Her new neighbor Jonathan helps her to make the difficult transition from wife to widow. Although Molly develops feelings for Jonathan, can she ever trust him to be truthful to her? She isn't sure she can fall in love again. Her trust in relationships is shattered because of Caleb's past actions.

**The Vulnerable Empowered Woman** Tasha N. Dubriwny, 2012-11-14 The feminist women's health movement of the 1960s and 1970s is credited with creating significant changes in the healthcare industry and bringing women's health issues to public attention Decades later women's health issues are more visible than ever before but that visibility is made possible by a process of depoliticization The Vulnerable Empowered Woman assesses the state of women's healthcare today by analyzing popular media representations television print newspapers websites advertisements blogs and memoirs in order to understand the ways in which breast cancer postpartum depression and cervical cancer are discussed in American public life From narratives about prophylactic mastectomies to young girls receiving a vaccine for sexually transmitted disease the representations of women's health today form a single restrictive identity the vulnerable empowered woman This identity defuses feminist notions of collective empowerment and social change by drawing from both postfeminist and neoliberal ideologies The woman is vulnerable because of her very femininity and is empowered not to change the world but to choose from among a limited set of medical treatments The media's depiction of the vulnerable empowered woman's relationship with biomedicine promotes traditional gender roles and affirms women's unquestioning reliance on medical science for empowerment The book concludes with a call to repoliticize women's health through narratives that can help us imagine women and their relationship to medicine differently
