

Sight translation passages

You will be given several minutes to read two brief scripts to understand their meaning. Here are some suggestions for techniques that might help you with this portion of the test:

- Read the entire document quickly to grasp the overall meaning and to identify areas where syntax might present a problem.
- Scan the document for words that are unfamiliar to you so that you will be prepared to sight translate them.

When you begin to sight translate, take one sentence at a time and make sure to read ahead for understanding of the entire utterance.

Speak at a steady, even pace that will not interfere with the accuracy and completeness of your rendition.

- Do not spend too much time trying to think of a word or phrase; instead, explain the term or, as a last resort, leave it in the source language and continue.
