

Hospice Face-to-Face Encounter Final Rule Published

Summary at a Glance:

Late Tuesday afternoon, November 2nd, the Federal Register posted the final rule for the Hospice Face-to-Face Encounter as part of the Final Rule entitled: Medicare Program; Home Health Prospective Payment System Rule Update for Calendar Year 2011; Changes in Certification Requirements for Home Health Agencies and Hospices. Highlights in the final rule are as follows:

- A hospice physician, hospice Nurse Practitioner, or incident/fellow physician rotating through the hospice may perform the face-to-face encounter.
- CMS clarified that the face-to-face encounter is based on benefit periods and not on actual days of care.
- Visit Timeliness is now 30 days. CMS has expanded the time frame for face-to-face encounters to 30 days prior to the start of the 180-day recertification, and each subsequent recertification.
- CMS has changed the language to 418.22 (CJ4) from "must visit" to "have a face-to-face encounter" in order to make clear that the hospice has flexibility for the practitioner to see the patient – either at the patient's home or by the patient coming to see the physician or NP.

Clarification that the face-to-face encounter is NOT billable. The billing regulations for hospices do not allow for physician reimbursement for administrative activities of physicians.

The Requirement:

The Affordable Care Act amends section 1814(a)(17) of the Social Security Act to require that on and after January 1, 2011, a hospice physician or nurse practitioner (NP) must have a face-to-face encounter with every hospice patient to determine the continued eligibility of that patient prior to the 180-day recertification, and prior to each subsequent recertification. Furthermore, the Affordable Care Act requires that the hospice physician or NP attest that such a visit took place, in accordance with procedures established by the Secretary of the HHS.

Specific provisions in the final rule:

1. Who Can Perform the Encounter?

Physicians:

- **Certifying terminal illness:** By statute, only a physician (not a NP) may certify a patient's terminal illness.
- **Definition of hospice physician:** A "hospice physician" is a physician either employed by or working under arrangements with a hospice (i.e., contractors).
- **Increased accountability:** By limiting "hospice physician" to those physicians who are employed by or working under contract with a hospice, CMS also increases accountability, as the hospice is in control of its employees and contracted physicians.

Comprehensive Casebook of Cognitive Therapy Frank M. Dattilio, 2013-06-29 This is the golden age of cognitive therapy Its popularity among society and the professional community is growing by leaps and bounds What is it and what are its limits What is the fundamental nature of cognitive therapy It is to my way of thinking simple but profound To understand it it is useful to think back to the history of behavior therapy to the basic development made by Joseph Wolpe In the 1950s Wolpe astounded the therapeutic world and infuriated his colleagues by finding a simple cure for phobias The psychoanalytic establishment held that phobias irrational and intense fear of certain objects such as cats were just surface manifestations of deeper underlying disorders The psychoanalysts said their source was the buried fear in male children of castration by the father in retaliation for the son's lust for his mother For females this fear is directed toward the opposite sex parent The biomedical theorists on the other hand claimed that some as yet undiscovered disorder in brain chemistry must be the underlying problem Both groups insisted that to treat only the patient's fear of cats would do no more good than it would to put rouge over measles Wolpe however reasoned that irrational fear of something isn't just a symptom of a phobia it is the whole phobia

The Language of Outsourced Call Centers Eric Friginal, 2009 The Language of Outsourced Call Centers is the first book to explore a large scale corpus representing the typical kinds of interactions and communicative tasks in outsourced call centers located in the Philippines and serving American customers The specific goals of this book are to conduct a corpus based register comparison between outsourced call center interactions face to face American conversations and spontaneous telephone exchanges and to study the dynamics of cross cultural communication between Filipino call center agents and American callers as well as other demographic groups of participants in outsourced call center transactions e.g gender of speakers agents experience and performance and types of transactional tasks The research design relies on a number of analytical approaches including corpus linguistics and discourse analysis and combines quantitative and qualitative examination of linguistic data in the investigation of the frequency distribution and functional characteristics of a range of lexico syntactic features of outsourced call center discourse
