Film response

The film presents the character Peter the high as the iconic figure and force of revolution for the Russian Empire. Many of the attributes awarded to the ruler depict that he was the only leading personality that transformed the history of Russia given its predominant historical recognition at the international platform. Born in Moscow, the nobleman held a strategic position in the Russia Empire since he father was one of the many Russian rulers to exist in history. In the film, the audience is introduced to a character of compelling influence in the sense that he commands servants and a powerful army.

Peter is presented as an intellectual and boisterous lad who has hatred for some Russian community members that had invaded their house and executed his family. The anger and frustration he experienced at that age of 10 gave him the courage to pursue his family's murderers and eventually avenge their death. The character role is adequately developed in the film with Dmitri Zolotukhin acting as the Peter the great. The historical 16th-century film is worth appreciating given the cinematographic elements employed to build Peter's important character. In the movie, it is evident that Peter struggled to establish a great lasting emperor that would scare the world given the supremacy that Russians have to be granted by other global nations.

Peter acted beyond the expectations of the ordinary tsar since he exhibited certain features that would only be viewed as dictatorial. He reconstructed the Russian empire by building trade industries, the military and national heritage. In his reasoning, there was a need to shape the country into an independent state that acted on its own. For that reason, he forced his subjects to dress in a particular manner, communicate with Russian troops and talk like a unique state. The film director, Sergei Gerasimov ensured that the film had enlightened various aspects of the development of the Russian customs and origin of the many traditions witnessed in the modern day nation.

The Russian Empire had a defined structure during the 16th century. Features of the empire included a strict observation of the Orthodox Church regulation and full adherence to succession rules. Peter stayed within the standards of the Orthodox Church and was a successor from their lineage. In the film, it is evident that he remained loyal to the hereditary monarch system by assuming power after his father's death. Peter gained full access to seas after a battle with Turkey. As such, he is viewed to have established an effective policy that counteracted outside pressure and military prowess. He used the naval power to navigate into the Black Sea and capture Azov of the Crimean Tatar. Such attributes depict his true nature in real life which have close similarities to the feature illustrated in the film. In my understanding, the movie has d

Frenken, 2014-04-01 The behavior of nanoscale materials can change rapidly with time either because the environment changes rapidly or because the influence of the environment propagates quickly across the intrinsically small dimensions of nanoscale materials Extremely fast time resolution studies using X rays electrons and neutrons are of very high interest to many researchers and is a fast evolving and interesting field for the study of dynamic processes Therefore in situ structural characterization and measurements of structure property relationships covering several decades of length and time scales from atoms to millimeters and femtoseconds to hours with high spatial and temporal resolutions are crucially important to understand the synthesis and behavior of multidimensional materials The techniques described in this book will permit access to the real time dynamics of materials surface processes and chemical and biological reactions at various time scales This book provides an interdisciplinary reference for research using in situ techniques to capture the real time structural and property responses of materials to surrounding fields using electron optical and x ray microscopies e g scanning transmission and low energy electron microscopy and scanning probe microscopy or in the scattering realm with x ray neutron and electron diffraction

Media Violence and Children Douglas A. Gentile, 2014-09-30 Stripping away the hype this book describes how when and why media violence can influence children of different ages giving parents and teachers the power to maximize the media s benefits and minimize its harm There are many opinions about media violence and children but not all are supported by science In this book the top experts gather the latest results from 50 years of scientific study as the basis for a comprehensive in depth examination of the complex issues surrounding the effects of media violence of different types Each chapter focuses on a particular issue of concern including hot topics such as brain development cyber bullying video games and verbal aggression Articles take into account factors such as economics differences based on the ages of children and differences between types of media violence This book provides the information parents and those who work with families need to make the best choices It includes chapters specifically relevant to the types of bullying schools have the most trouble identifying and controlling Most importantly the writing is both intelligent and accessible so that parents educators pediatricians and policymakers can understand and apply the findings presented *A Historical Study of the Magazine, Films In Review* Frederick Louis Ruggles Carpenter, 1960 *Celluloid Mischief* Erich Goode, 2023-05-30 *Celluloid Mischief* examines the portrayal of wrongdoing and deviant behavior in film The premise is that films are material products of both individual and collective imagination that reflect the values and norms of the society that produce them On this basis it is possible to perceive how society understands and classifies particular kinds of behavior and assigns or designates classes of people and actions as good or bad So called wrongdoing in movies then tells us about real life norms the violation of those

norms and the efforts to punish and control the perpetrators of those violators Motion pictures embody information about the social world they constitute a universe of raw particulars that await excavation and analysis By applying the appropriate approach what happens on the screen can guide us to an understanding of society and culture Films are commercial products the people who make them are members of a society influenced by that society who attempt to appeal to lots of other members of that society by producing something that they want to see A society's films tell us a great deal about the taste and proclivities of the society that produce and consume them Using postwar and contemporary Hollywood cinema as case studies this book demonstrates the complex and evolving nature of modern America's social economic and political values

Parasocial Politics Jason Zenor, 2014-10-21 The popularity of cable news satire documentaries and political blogs suggest that people are often absorbing and dissecting direct political messages from informational media But entertainment media also discusses the important political issues of our time though not as overtly Nonetheless consumers still learn debate and form opinions on important political issues through their relationship with entertainment media While many scholarly books examine these political messages found in popular culture very few examine how actual audiences read these messages Parasocial Politics explores how consumers form complex relationships with media texts and characters and how these readings exist in the nexus between real and fictional worlds This collection of empirical studies uses various methodologies including surveys experiments focus groups and mixed methods to analyze how actual consumers interpret the texts and the overt and covert political messages encoded in popular culture *Current Research in Film*, 1987
