

## My Life Experience

Being a nurse had always been my dream and now that I have finished studying in Los Angeles Mission College, I am ready to take the next step. I have heard a lot of good things about West Coast University and based on the information I gathered, the quality of education they offer is one of the best.

I remember that when I was 6 years old my parents would tell me that as an infant, I would not let anyone else carry me because I only trusted them. During this stage, the infant is uncertain about the world in which they live in (McLeod, 2018). I see this as a natural reaction of an infant because of being vulnerable and fragile. I was already gaining confidence on my own, but if I broke something, my parents will not scold me and feel more ashamed of myself if it was an accident. If it was done on purpose, they will for sure get mad. Of course, I did not want them to get mad because it makes me feel guilty and worried. As soon as I reached 4 years of age, I already had a concept of guilt.

Which is good because a normal child would have remorse or guilt if they hurt someone or did something. I also remember seeing a stray kitten outside our gate and I wanted to take it inside the house because the mom was nowhere to be seen. I felt so guilty for leaving it there because I do not know if someone else would care. If saw that kitten in my earlier years, I would not have had the same feeling towards it. There is a possibility that I do not trust what it could do to me and where it came from.

When I reached 5 years old, I was sent to a big school and had to interact with about 40 people in class every day. I did not get scared or intimidated by my other classmates because I saw it as an opportunity to make new friends and grow. Being in a good school and surrounded by different people helped develop my personality be
