Grade	7th	Subject Area	Physical Education

Step 1: What is the focus for my SLO?

a. Identify the content area for focus in the SLO.

Physical education - physical activity and health

b. What is the SLO skill focus statement for this content area or subject?

Students will be able to design a personal fitness plan incorporating preferred physical activities that aligns with their personal fitness goals and demonstrates an understanding of the connection between desired outcomes and primary benefits of various activities.

c. What led to the decision to focus on this content area and the SLO skill focus?

Middle school is a time when many students become less active while at the same time they become more body-conscious. To help students remain or increase their activity level as they enter the critical teenage years, I believe providing students with the opportunity to participate in a variety of activities while also learning about how that activity can help support physical fitness will help students develop a more active and healthier lifestyle. Feedback gathered from previous years indicates that while students have gained additional knowledge and skills with various physical activities, I would like to improve my instruction to help students make a more direct connection with their desired fitness goals.

d. What TEKS for the content area or subject correspond to these most important skills? You may provide an enumerated list of TEKS, but be prepared to share the verbiage of the TEKS with your appraiser.

(3) Physical activity and health. The student exhibits a health enhancing, physically-active lifestyle that provides opportunities for enjoyment and challenge. The student is expected to:
 (B) participate in moderate to vigorous health-related physical activities on a regular basis;
