The George M. Landes Prize for Technical Communication 1994, 1994 **Fundraising for Academic Libraries** Karlene Noel Jennings, Joyce Garczynski, 2020-06-15 With more universities facing financial difficulty and academic libraries being asked to do more with less, fundraising has been transformed from a luxury to a necessity. Now more than ever, academic libraries need to know how to effectively obtain and steward donors. Most fundraising books are written from perspectives that are not always relevant to the complex environment that academic libraries must navigate. *Fundraising for Academic Libraries: A Practical Guide for Librarians* is written just for academic libraries. The authors demystify fundraising to enable those to work in an academic library to feel confident in their ability to obtain contributions, sponsorships, and grants for their libraries. From major gifts to events to special collections, this book looks at academic library fundraising holistically. Not a one-size-fits-all approach, chapters explore multiple methods that an academic library can use to identify potential donors, ask for gifts, and retain existing contributors. This book also connects readers with extensive fundraising resources so they can readily apply the book's tips and techniques to their own library environment. Whether they are interested in approaching a local business to provide a prize for a silent auction or asking for an established donor for an estate gift, novice academic library fundraisers will find step-by-step instructions that help them navigate a variety of situations. By providing readers with practical fundraising tools including flow charts, simple proposal and gift templates, as well as sample donor correspondence, this book enables academic libraries to be able to start and advance their own development programs.
