

Important Qualities of Being a Dentist

Manual Dexterity

- **Dentists need to work with precision.** In order to perform dental procedures, a dentist must be able to work with precision on an extremely small scale. This is because the mouth is an extremely small area for a dentist to carry out their work.
- **Dentists need good motor skills.** Having great motor skills and being able to use several tools accurately in a small area help dentists perform their job well.
- **Dentists need good hand-eye coordination.** Having great hand-eye coordination will ensure that patients integrity and safety is maintained.

Sample Mmi Scenarios Dental School:

INTERVIEWS FOR MEDICAL SCHOOL: Multiple Mini Interview (MMI) Practice Thanthullu Vasu, Shrya Shyam, RISE Foundation Leicestershire, 2023-04-21 Medical interviews have changed a lot with time in the last two decades multiple mini interviews MMIs have revolutionized the assessment strategies for entrance to medical schools MMIs usually consist of 6-10 stations of independent assessments done in a timed circuit so that the same examiner evaluates a specific skill for a station among the candidates Many of these stations assess a candidate's soft skills including critical thinking problem solving team working leadership and professional attitudes in addition to their knowledge skills and motivation towards choosing medicine as a career MMIs are not just a test of a candidate's knowledge or skills but their ability to use it appropriately at the right time Aristotle said we are what we repeatedly do Excellence then is not an act but a habit Candidates wishing to succeed in medical MMI interviews need repetitive practice in the various stations These stations usually include assessments on communication skills medical ethics recent medical facts role play with an empathetic approach data interpretation and calculations scenario based situations personal character motivation and judgment This book will provide an excellent variety of opportunities to practice these stations and guide the candidate with a framework of answers This book can be used for various medical university entrance exams including those in the United Kingdom via the Universities and Colleges Admissions Service UCAS the United States via the American Medical College Application Service AMCAS Canada via the respective Medical School Applications Service Australia via the specific state Tertiary Admissions Centre and many other countries via their specific admission pathways Dr Thanthullu Vasu has previously published four medical books alongside many chapters and articles in leading international journals He has founded organized and directed many teaching courses that have received excellent feedback He regularly organizes national MMI courses for candidates applying to medical schools these courses are in high demand and have consistently produced a successful outcome Many of the contributors in the book are team members from the RISE Foundation Leicestershire a charity based in Leicestershire <https://risefoundationuk.com> All the contributors have extensive experience as examiners in many interviews and courses The royalties from the sale of this book will be donated to the RISE Foundation Leicestershire Thank you for buying this book as the money will go towards helping various causes supported by this charity We wish you much success in your interviews and your future medical career

Getting into Dental School Adam Cross (College vice-principal), 2019-03-01 Covering every aspect of the application process from writing a winning personal statement to interview techniques and career prospects Getting into Dental School has all of the essential information would be dental students need to secure a place on the course of their choice

International Best Practices for Evaluation in the Health Professions William McGaghie, 2022-02-16 This unique text presents a comprehensive narrative on why and how health professions students need to be evaluated for practice in the 21st century It systematically addresses current evaluation best practices in the health professions to identify

today's evaluation benchmarks reveal evaluation limits address improvement pathways and map a research agenda to boost future evaluation practices Advancements in information and communication technology bioscience and behavioral research and worldwide travel are dissolving barriers that have separated professions countries and cultures for centuries This book both celebrates these achievements and carefully considers next steps It recognizes the huge improvements made in evaluation practices within the health professions over the past 40 years but asks for more calling for added reform and better understanding of current practice from different social cultural and educational perspectives International Best Practices for Evaluation in the Health Professions values crossprofessional programs that span boundaries and acknowledge the authority of the future rather than historical baggage Educators worldwide will be enlightened and inspired by its straightforward compelling narrative

Career Paths in Oral Health Rodrigo J. Mariño, Michael V. Morgan, A. Damien Walmsley, 2018-08-31 In providing a comprehensive overview of the career paths currently open to oral health professionals this book will serve as an essential reference guide for anyone considering a career in oral health It covers for example clinical career paths in general dentistry in private practices community centers and hospitals and each of the various specialties academically related career paths in both teaching and research and non traditional paths community government administration policy making government research and oral health organizations The authors are from various countries and both academic and non academic backgrounds They have been selected for their distinction in particular career paths and include in their contributions insights gained from personal experience This book will be ideal for readers seeking an introductory portrait of the different career paths in oral health such as students It will also be a useful source for those wishing to re-examine the field e.g. oral health graduates considering their career choices or to acquaint themselves with contemporary issues and debates

Teacher Selection: Evidence-Based Practices Robert M. Klassen, Lisa E. Kim, 2021-09-28 Marketing text This book combines theory and research from educational and organizational psychology to provide guidance on improving the teacher selection process and subsequently educational outcomes for all students The book identifies the characteristics of effective teachers analyzes research on selection practices and examines new approaches to teacher selection recruitment and development The central premise of the book is that improving the effectiveness of teachers and thus students educational outcomes can be achieved by making the recruitment and selection process more effective and more efficient Accordingly the book describes how to identify and select individuals for the teaching profession who display both strong cognitive attributes e.g. subject knowledge and essential non cognitive attributes such as resilience commitment to the profession and motivation for teaching Key topics Teacher selection practices from the viewpoint of organizational and educational psychology Teacher effectiveness and the role of individual attributes Situational judgment tests SJTs and multiple mini interviews MMIs for teacher selection Implementation of teacher selection programs Teacher recruitment and development Given its scope the book represents an essential reference guide for scholars

educational leaders and policymakers and graduate students in educational leadership programs as well as professionals in child and school psychology educational psychology teaching and teacher education **Pedagogies of Widening**

Participation in Medical Settings Louise Alldridge, 2024-08-26 Addressing the fact that under representation has been a concern for medical educators medical councils and the government for some time this book presents the first evidence based monograph for pedagogies that can be applied to all aspects of widening participation tackling chronic under representation in medical settings Discussing implications that have international ramifications for the field the chapters showcase a variety of case studies research and evaluations that draw on experiences and insights from a wide range of current practitioners exploring topics such as outreach access selection retention and progression From widening participation leads and officers to national representative bodies and students from medical schools nationwide the book sets out perspectives guidelines and research that can be applied throughout the medical student life cycle Novel in approach and timely in content this edited collection coincides with the drive to increase social mobility and the proportion of medical students from educationally and socially disadvantaged backgrounds directly tackling the class system and elitism present in the medical professions This book will be of great benefit to scholars researchers and postgraduate students in the fields of medical education multicultural education and higher education as well as those researching the idea of widening participation in the medical field and diversity in the professions more specifically *Symposium* ,2008 **University**

Interviews Ian Stannard, Godfrey Cooper, 2017-10-13 Authored by two school based careers advisers who both have a wealth of experience in guiding students through the interview process Written in direct collaboration with leading universities with unique insider knowledge from admissions tutors on how to impress at interview Packed with detailed sample questions and answers to common and tough questions helping students to prepare thoroughly and cope under pressure Unlike other guides it covers the soft skills needed for interview and the psychology of interviews guidance which is not typically taught at school With coverage of the most competitive interviews including special sections on Oxbridge Medicine and Degree Apprenticeships [Oxford Textbook of Medical Education](#) Kieran Walsh, 2016 Providing a comprehensive and evidence based reference guide for those who have a strong and scholarly interest in medical education the Oxford Textbook of

Medical Education contains everything the medical educator needs to know in order to deliver the knowledge skills and behaviour that doctors need The book explicitly states what constitutes best practice and gives an account of the evidence base that corroborates this Describing the theoretical educational principles that lay the foundations of best practice in medical education the book gives readers a through grounding in all aspects of this discipline Contributors to this book come from a variety of different backgrounds disciplines and continents producing a book that is truly original and international

[Selection and Recruitment in the Healthcare Professions](#) Fiona Patterson, Lara Zibarras, 2018-11-11 How we recruit future healthcare professionals is critically important as the demand for high quality healthcare increases across the globe

This book questions what the evidence tells us about how best to select those most suited to a career in healthcare ensuring that the approaches used are relevant and fair to all who apply. The editors of this collection take a comprehensive look at the latest research surrounding recruitment and selection into healthcare roles. Each chapter is authored by leading experts and using international case material the practical implications for workforce policy are explored. They review the key stages in designing effective selection systems and discuss how best to evaluate the quality of selection processes. Evidence from role analysis studies as well as the effectiveness of different selection methods including aptitude and situational judgment tests, personality assessment and interviews are examined. Chapters also cover approaches to student selection and recruitment for postgraduate trainees through to senior appointments. Finally they highlight contemporary issues in recruitment including the use of technology, selecting for values, candidate perceptions, coaching issues and how best to promote diversity and widening access.

Resources in Education, 1986-10 **India Migration Report 2020** S. Irudaya Rajan, 2020-11-26

India Migration Report 2020 examines how migration surveys operate to collect, analyse and bring to life socio-economic issues in social science research. With a focus on the strategies and the importance of information collected by Kerala Migration Surveys since 1998, the volume explores the effect of male migration on women left behind, attitudes of male migrants within households, the role of transnational migration and its effect on attitudes towards women. It investigates consumption of remittances and their utilization, asset accumulation and changing economic statuses of households, financial inclusion of migrants and migration strategies during times of crises like the Kerala floods of 2018. It highlights the twenty-year experience of the Kerala Migration Surveys, how its model has been adapted in various states and led to the proposed large-scale India Migration Survey, and explores issues of migration politics and governance as well as return migration strategies of other countries to provide a roadmap for India. The volume will be of interest to scholars and researchers of development studies, economics, demography, sociology and social anthropology, and migration and diaspora studies.

Remediation in Medical Education Adina Kalet, Calvin L. Chou, 2013-11-26

Remediation in medical education is the act of facilitating a correction for trainees who started out on the journey toward becoming excellent physicians but have moved off course. This book offers an evidence-based and practical approach to the identification and remediation of medical trainees who are unable to perform to standards. As assessment of clinical competence and professionalism has become more sophisticated and ubiquitous, medical educators increasingly face the challenge of implementing effective and respectful means to work with trainees who do not yet meet expectations of the profession and society. Remediation in Medical Education: A Mid-Course Correction describes practical, stepwise approaches to remediate struggling learners in fundamental medical competencies, discusses methods used to define competencies and the science underlying the fundamental shift in the delivery and assessment of medical education, explores themes that provide context for remediation including professional identity formation and moral reasoning, verbal and nonverbal learning disabilities, attention deficit disorders in high-functioning

individuals diversity and educational and psychiatric topics and reviews system issues involved in remediation including policy and leadership challenges and faculty development *British Medical Journal* ,1886 **Journal of Dental Education** ,1996 Includes section Book reviews Dentistry Interview Questions and Answers With Full Explanations (Includes Sections on Mmi and 2013 Nhs Changes) Sri H. Ravi,R Patel,V. Babu,2013-09-30 The Dentistry interview book is the number one selling dentistry book worldwide providing an up to date review of the most common questions with full answers and pointers on what the interviewers are looking for Described as the essential guide it is a vital resource as part of your preparation Example question Consider the case of nine year old Rebecca who comes in to surgery with her parents This is her first dental visit She has been kept awake with a painful tooth Examination shows that she has several decayed teeth and that a lower right primary molar is causing the present pain Rebecca is crying and climbing out of the dental chair What is the best way to handle this situation Clinically Rebecca s case draws on various themes Without starting your undergraduate training you will not need to know about the clinical implications in detail However an understanding of the themes will make you stand out A common answer is to indicate that some dentists may consider writing a brief referral letter to the local hospital for this tooth to be extracted with a general anaesthetic The questions that you want to be thinking about clinically are Can this tooth be restored or does it need extraction What are the implications if I extract in the future orthodontically can it have consequences Does the patient need General Anaesthetic or can this be managed within practice under Local Anaesthetic Rebecca has other dental needs as stated and has never attended a dentists before how would I like to manage this to cause her the least upset All of the above would require consideration of who would be consenting for the patient In this case at 9 years old the patient would require a parent or legal guardian to consent for her Gillick Competence allows for a child up to the age of eighteen to make their own decision regarding their care However the dentist must carefully assess that all the criteria for valid consent detailed in question four are present There is particular emphasis placed on the patient s ability to understand and retain all the information given and communicate their reasoned decision Gillick Competence will be more relevant for scenarios where the child in question is slightly older The ethical and legal responsibility to respect children as well as those who support them is essential in establishing strong professional relationships In this particular situation explaining the options and offering choices will help the parents to make their decisions appropriately after understanding what s on offer which in turn will increase the likelihood of co operation whichever option is finally decided upon For Example The dentist should tell the family about the options and explain how the pain can be controlled with analgesics and a simple dressing He she should explain that it may be wise to slowly introduce Rebecca to dental care so that she becomes familiar with the dental environment before starting treatment In this way he is enforcing the act of beneficence by acting in the patient s best interests and enabling the child s parents to make an informed decision thereby enabling autonomy Topics covered GENERAL POINTS TO CONSIDER TRADITIONAL
