Marketing Violent Entertainment to Children: a one-year follow-up review of industry practices in the motion picture, music recording & electronic game industries: , 2006

Handbook of Affective Sciences Richard J Davidson, Klaus R Sherer, H. Hill Goldsmith, 2009-05-21 One hundred stereotype maps glazed with the most exquisite human

prejudice especially collected for you by Yanko Tsvetkov author of the viral Mapping Stereotypes project Satire and cartography rarely come in a single package but in the Atlas of Prejudice they successfully blend in a work of art that is both funny and thought provoking The book is based on Mapping Stereotypes Yanko Tsvetkov s critically acclaimed project that became a viral Internet sensation in 2009 A reliable weapon against bigots of all kinds it serves as an inexhaustible source of much needed argumentation and occasionally as a nice slab of paper that can be used to smack them across the face whenever reasoning becomes utterly impossible The Complete Collection version of the Atlas contains all maps from the previously published two volumes and adds twenty five new ones wrapping the best selling series in a single extended edition

Annual Report Motion Picture Association of America,1968 **The Naked Truth** Kevin Sandler,2007-08-22 From parents and teachers to politicians and policymakers there is a din of voices participating in the debate over how young people are affected by violence strong language and explicit sexual activity in films The Motion Picture Association of America MPAA responded to this concern in 1968 when it introduced a classification and rating system based on the now well known labels G PG PG 13 R and X For some these simple tags are an efficient way to protect children from viewing undesirable content But do the MPAA ratings actually protect children In The Naked Truth Kevin S Sandler argues that the rating system does not protect children but instead protects the Hollywood film industry One prime indicator of this is the collective abandonment of the NC 17 rating in 1990 by the major distributors of the MPAA and the main exhibitors of the National Association of Theatre Owners By categorizing all films released by Hollywood and destined for mainstream theaters into R ratings or lower the industry ensures that its products are perceived as responsible entertainment to all audiences and incontestable to politicians and moral reformers By embracing a no NC 17 rule the industry collapses mature subject matter with pornography creating a national cinema where certain representations of sex and nudity are taboo

Autism Michael Rutter, Eric Schopler, 2012-12-06 This volume aims to provide the reader with an up to date account of knowledge research education and clinical practice in the field of autism from an international perspective The emphasis throughout is on the growing points of knowledge and on the new developments in practice We have tried to keep a balance between the need for rigorous research and systematic evaluation and the importance of expressing new ideas and concepts so that they may influence thinking at a stage when questions are being formulated and fresh approaches to treatment are being developed The book had its origins in the 1976 International Symposium on Autism held in St Gallen Switzerland but it is not in any sense a proceedings of that meeting Most papers have been extensively rewritten to provide a fuller coverage of the topic and also to take account of the issues raised at the meeting Discussion dialogues have been revised and re-structured to stand as self contained chapters Many significant contributions to the conference have not been included in order to maintain the balance of a definitive review however a few extra chapters have been added to fill crucial gaps We hope the result is a vivid picture of the current state of the art As editors we have been most impressed by the advances since the 1970 international conference in London
