**Assessment Rubrics Decoded**  
Kelvin Heng Kiat Tan, 2020-03-27  
Rubrics offer concrete artefacts of what schools evaluate to be of merit and what educators and schools value to be worth rewarding. *Assessment Rubrics Decoded* offers insights into a myriad of issues that affect and are affected by the construction of merit in students' learning and the articulation of underlying educational ideologies in the assessment of student achievement. Designed for both students and teachers who should have parity of involvement in developing and using rubrics, this book covers the problematic issues of assessment in schools while offering readers practical solutions to navigating the ensuing tensions and dilemmas. The notion that rubrics may hinder assessment transparency is also discussed with examples to warn against uncritical use of rubrics that may discipline rather than help learners. The perspective of a school leader in providing assessment leadership to rubrics usage across a school is included for extending awareness of rubrics beyond classroom contexts. This provides an informed approach for teachers to understand the stakes and complexities involved in judging learning and learners whilst offering concrete options and suggestions to consider. This book will be a valuable resource for classroom teachers, school leaders, teacher educators, and researchers interested in the field of assessment rubrics.

**Methods, Methodologies, and Perspectives in the Humanities and Social Sciences With Particular Reference to Islamic Studies: A Critical Rationalist**

**Interpretation** Ali Paya, 2021-01-01  
This book presents the first comprehensive introduction to methods and methodologies in the humanities and social sciences in general and Islamic Studies in particular from a critical rationalist point of view. The book aims to be a self-sufficient theoretical and practical guide to the topics that it introduces. It contains a large selection of fully worked-out review activities and review questions plus topics for further discussion which are devised to assist readers to better understand the issues which are discussed in the book. Last but not least, all efforts have been made to make sure that most if not all of the reading materials which are recommended in the book are not only of the highest quality but also freely available on the internet.

**Innovative Assessment for the 21st Century** Valerie J. Shute, Betsy Jane Becker, 2010-09-08  
In today's rapidly changing and information-rich world, students are not acquiring adequate knowledge and skills to prepare them for careers in mathematics, science, and technology with the traditional approach to assessment.

and instruction New competencies e g information communication and technology skills are needed to deal successfully with the deluge of data In order to accomplish this new educationally valuable skills must be acknowledged and assessed Toward this end the skills we value and support for a society producing knowledge workers not simply service workers must be identified together with methods for their measurement Innovative Assessment for the 21st Century explores the faces of future assessment and ask hard questions such as What would an assessment that captures all of the above attributes look like Should it be standardized What is the role of the professional teacher
