 OWNER'S MANUAL

The push buttons on the 4-Button remote controls can activate garage door openers, entry ways and/or light controls. (Instructions for programming light products are included with those accessories.)
 Code switch remote controls are used when several persons are operating the same device. Code switches must be set to matching positions in all remote controls used to operate the same receiver. Follow the instructions for Figures 1 and 2. Use the "ribbed" push button exclusively for code switch application.

Program the Ribbed push button (Code switch application)

1. Remove the battery compartment cover as shown in Figure 1.
2. Remove the case screw on the housing bottom.
3. Hold the remote control as indicated and pull to separate the housing. Set aside the case top (with push buttons).
4. Place remote circuit boards side by side. Make sure you set code switches 1 through 9 in all remotes to matching positions (Figure 2). Use a pen or a screwdriver to move the switches to (+), (-) or (0).
5. Reassemble case top and bottom by snapping them together.
6. Replace the case screw and battery compartment cover.

Program Receiver to Match Remote Control Code

1. Press and release the "learn" button on the motor unit. The learn indicator light will glow steadily for 30 seconds.
2. Within 30 seconds, press and hold the button on the hand-held remote.
3. Release the button when the motor unit light blinks. It has learned the code. If light bulbs are not installed, two clicks will be heard.

2. Remove the case screw. Insert tab on clip holder through circular label and into case, Figure 3. Slide clip holder forward.
