The editors have created a current, user friendly text book specifically in relation to Practice Education, particularly in light of the developing role of occupational therapy in current practice. Many developments in practice education have refocused the value that the profession places on occupation, particularly in role emerging placements and expanding areas of practice. These developments are captured in this text. Other texts that have been produced have predominantly had a multi professional focus and not addressed all the key occupational therapy issues in the depth required. There is always something to learn irrespective of your level of expertise.
